FIRST EDITION.

FOREIGN.

The Municipal Council of Lyons Suspended.

FRIGHTFUL SCENES IN KHIVA.

The Town Plundered and 1,600 Persians Slaughtered.

FIGHTING IN SONORA.

FRANCE.

The Municipal Council of Lyons Suspended.

PARIS, October 25.—The Prefect of Lyons has suspended the Municipal Council for two months, and appointed a committee of forty to perform their duties.

The Bazaine Court Martial.

In the Bazaine trial to-day, Captain Yung testified that on the 18th of August last, the accused, upon seeing his troops abandoning their positions, exclaimed: "What can be done with such troops?"

The evidence of several other officers was heard, but it was unimportant and contradictory.

A Radical Republican Journal Seized.

The radical Republican journal, *Laveair Nationale*, has been seized for publishing an article violently hostile to the Count de Chambord.

Meeting of Bonapartists.

At a meeting of Bonapartist deputies to-day, twenty-five signed a document protesting against the schemes for the restoration of the monarchy.

Allegiance to the Republic.

PARIS, October 26.—Thirty former Deputies of Alsace and Lorraine have signed an address to the Assembly in favor of the Republic.

Conference of Americans.

Minister Washburne, Consul General Reade, D. D. Field, Esq., of New York, Mr. Frederick Passy, Secretary of the French Peace Society, and others, met here to-day and discussed the propositions laid down at the Juridical Congress of Brussels. The conference was followed by a dinner, at which a toast to the friendship of France and the United States was enthusiastically received.

SPAIN.

The Government Squadron off Cartagena.

MADRID, October 25.—The Government squadron was seen not far from Cartagena on Thursday.

An Unseaworthy Frigate.

It is reported that the intransigente frigate Tituan is unseaworthy, and that a speedy dissolution of the insurgent fleet is expected.

Firing at Cartagena.

MADRID, October 26.—The Government fleet arrived off Cartagena on Thursday last, and formed in line of battle. The forts opened fire on it without effect. The insurgent vessels remained inside the harbor. An engagement was expected on the following day.

Ransom Demanded.

The *Imparcial* says the insurgent Junta at Cartagena demand a ramson of $10,000 each for the four merchantmen captured by their fleet.

MEXICO.

The Revolution in Sonora.

SAN FRANCISCO, October 25.—Special dispatches from Ures, Sonora, report a fight between the revolutionists and Government troops on September 29th at Conicaut. There were a few wounded on each side. The bandits are joining the rebels. Governor Pesquirera levied a tax of $35,000 on nine districts of the State for the suppression of the insurrection.

A Guyamas correspondent of the San Diego *Union*, under date of the 10th inst., says there has been no fighting yet. Pesquirera, who is on the way to the seat of war, has four hundred men, and will have to fight on his arrival there. The revolutionists number four hundred. Pesquirera expects to crush the rebellion with little bloodshed.

GREAT BRITAIN.

Specie Shipments.

LONDON, October 25.—Nearly three hundred thousand dollars in specie were shipped from Southampton to-day.

Fenian Amnesty Meeting.

LONDON, October 26.—A meeting was held at Blackheath to-day in favor of amnesty to the Fenian convicts. Six thousand persons were present. The affair passed off quietly.

ASIA.

Frightful Scenes in Khiva.

ST. PETERSBURG, October 25.—A dispatch from Central Asia brings intelligence of frightful scenes in Khiva upon the evacuation of that city by the Russian troops. The guards revolted and plundered and destroyed the town. In addition to these excesses, the Usbeks slaughtered sixteen hundred of the emancipated Persians. The Khan sent to General Kauffman, asking assistance to restore order, but it is not known what answer was made.

ITALY.

Chambord's Assurance not Received.

ROME, October 25.—The Italian Government has not yet received Chambord's assurance that his policy will be non-aggressive, and that he will not seek to reinstate the Pope.

SWITZERLAND.

Cures Installed.

GENEVA, October 26.—Three cures recently chosen by the Old Catholics of this city were formally installed to-day.

SPORTING NEWS.

The Turf.

BALTIMORE, October 25.—First race, one and one-half miles, all ages, was won easily by Lizzie Lucas; time: 2:48.

Second race three mile heats, three years old, was won by Katie Pease; time: 2:56 and 250¼.

Third race, four mile heats, all ages; True Blue and Harry Bassett started; Harry Bassett was distanced in the first heat by nearly 200 yards; time: 7:49.

LEXINGTON, KY., October 25.—First race; B. J. Treacy's started, the others drawn; a walk-over; time: 2:53.

Second race, won by Doble; time: 2:47, 2:51, 2:46¾ and 2:49¾.

Third race, won by Dick Jamison; time: 2:36¾, 2:34¾, 2:34¾, 2:34¾ and 2:37¼.

CHICAGO, October 25.—At Dexter Park, this afternoon, in the free for all race, purse $3,500, Bashaw, Jr., Milo C., Lady Mac, Ella Wright, Sally Morris and Brother Jonathan started; Brother Jonathan took the first heat in 2:27¼, Bashaw, Jr., second in 2:26¾, Milo C. the third in 2:26¾, and the finish was then postponed till Monday on account of the darkness. The judges put Budd Doble up to drive Milo C. in the third heat, as the former driver was evidently pulling her. Lady Mac was distanced in the third heat. During the afternoon Goldsmith Maid was twice speeded around the track, doing her mile in 2:18 each time.

The running race was won by Lady Fairfield in straight heats, Harry of the West second; time 1:50 and 1:51.

James Stinson, of this city, then drove his four-in-hand team around the track in 2:50. This is said to be the fastest time on record for a four-in-hand.

UTAH.

A Polygamist Released from the Penitentiary.

SALT LAKE, October 25.—Hawkins, who had two polygamous wives, and was prosecuted by the first wife for adultery in the District Court, and was convicted and sentenced to three years in the penitentiary, obtained his liberty yesterday by the judgment of the Supreme Court, based on the Englebrecht decision, that a United States Marshal cannot serve a *venire* in causes under the statutes of the Territory.

Death of John C. Heenan.

SALT LAKE, UTAH, October 26.—John C. Heenar, the prize fighter, died on Saturday morning, near Rawlins, U. P. R. R., while on his way to San Francisco, of consumption.

The Modocs.

The Modocs passed Ogden to-day on a special train.

Deposits of Cinnabar Discovered.

The Baldwin expedition discovered large and valuable deposits of cinnabar in northern Arizona.

YELLOW FEVER.

Bainbridge, Ga.

SAVANNAH, October 25.—A dispatch from Bainbridge, Ga., says a great many new cases of yellow fever are reported this evening. Dangerous cases, reported better this morning, have relapsed, and the death of the patients is hourly expected. Four hundred persons have left the city, and the streets are deserted. Outgoing trains this evening are crowded, and vehicles cannot be had for love or money. The physicians say the epidemic is increasing.

SAVANNAH, GA., October 26.—Reports from Bainbridge state that the excitement about yellow fever there is dying out, and the panic over. There have been no fatal cases to-day.

Memphis.

MEMPHIS, October 25.—Mortuary report: Yellow fever, 24; other causes, 5; for the week: yellow fever, 169; other causes, 34.

MEMPHIS, October 26.—There were twenty-two deaths from yellow fever to-day.

Marine News.

LONDON, October 25.—The steamships Siberia, from Boston, and Java and Arragon, from New York, have arrived out.

NEW YORK, October 26—The steamships Egypt and Oceanic, from Liverpool, have arrived.

CHICAGO.

Proceedings of the National Board of Trade.

CHICAGO, October 25.—The National Board of Trade reassembled this morning. The President announced that the Executive Council had re-elected Charles Randolph Secretary and Treasurer, and had designated Baltimore as the next place of meeting.

The subject of finances was taken up. Mr. Nourse, of Boston, made an extended address in favor of the report of the committee, and arguing the necessity and ability to resume specie payments on the day fixed. He moved an amendment to the third section that Treasury notes cease to be legal tenders, except for dues to the United States, after the date of resumption of specie payments, July 1, 1877.

Mr. Dore, of Chicago, read statistics to prove the need of the present volume of currency.

Mr. Mersner, of New York, favored the report of the committee.

Mr. Taylor, of Cincinnati, favored the committee's report with Mr. Nourse's amendment, and thought the Government should go out of the banking business.

Mr. John A. Gano moved that without final action on the financial and transportation questions, when the board adjourns, it be to meet in Baltimore on the second Tuesday of January next. Adopted.

The amended report on transportation was submitted. The propositions made are, first, that Congress may prevent unjust State restrictions upon either State commerce, but that protection to the people of a State be secured by the Legislature and the courts; second, rejoicing at the improvements of the Welland and St. Lawrence canals by Canada and the New York canals, and favoring the Mississippi river improvement; third, referring the question of a double track railway from the East to the West, and questions germain, to the Executive Council, for future consideration.

Mr. Helton, of Milwaukee, offered a substitute for the first proposition, declaring that States have the right to regulate railways.

Mr. Wetherill, of Pennsylvania, favored Congressional regulation.

Mr. Able, of St. Louis, opposed sanctioning Congressional control of railways, or anything looking to the centralization of the powers of the Government, and Mr. Holton's amendment.

Mr. Burwell, of New Orleans, took the same ground.

Messrs. Kinzie and Wooly, of Cincinnati, Allen, of Philadelphia, and Crocker, of Boston, favored the amended report.

Mr. Wright, of Chicago, offered a substitute providing that the subject of transportation be treated by the General Government and Legislatures, and governed by the same general laws governing other industries; that it should not be the policy of the General Government to assume the business of the people, either in the transportation by rail or water, or in the construction of such routes, and recommending the Legislatures to protect the people against wrongs by common carriers.

Mr. Hawley, of Detroit, favored the report.

Mr. Bromberg opposed.

The debate having involved to some extent the question of State's rights, the report was so amended as to ask Congress to exercise such power as the Constitution authorized for the regulation of inter State commerce.

The vote on the first proposition was yeas 26, and nays 16—defeated for the want of a two-thirds vote. The second and third propositions were unanimously adopted.

Resolutions, thanking the Chicago Board of Trade, Chicago and her newspapers, were unanimously adopted. Resolutions were adopted favoring reciprocal trade relations with the Spanish colonies.

Mr. B. A. Gano introduced a resolution, which was adopted, asking banks and clearing houses to consider some plan for obviating the necessity of large transfers of currency between business centres. Resolutions were adopted thanking the officers of the Board of Trade.

Adjourned to meet in Baltimore on the second Tuesday of January next.

Success of the Exposition.

CHICAGO, October 26.—The managers of the Inter-State Industrial Exposition have decided to close the Exposition on the 8th of November, or two weeks from yesterday. It has now been four weeks since it opened, and the interest and attendance have steadily increased from the first, insomuch that its success has been even greater than was expected.

Verdict on the Lamont Disaster.

The verdict of the jury in the Puffenberger case yesterday, as first brought in and as signed by all the jurymen, not only acquitted the accused, but severely censured the Chicago & Alton Railroad for employing intemperate men. Upon calling the jury, however, one of them declared it was not his verdict, and on being sent back to their room, the clause censuring the railroad company was struck out and a simple verdict of acquittal rendered.

IOWA.

Alleged Robbery of a County Treasury—A Deficit Suspected.

DUBUQUE, October 25.—The robbery of the Jackson county Treasury on Sunday night still continues to create much excitement in that county. The conviction is gaining ground that there has been no robbery at all, but that a deficit existed in the Treasury, and a pretended robbery was concocted to cover it up. The Board of Supervisors have been in session during the week, examining the Treasurer's accounts, but as yet have taken no definite action. No arrest has been made and no rewards offered. Treasurer J. A. Bryan has borne an irreproachable character heretofore.

THE RAILROAD ARTICLE.

Final Action of the Constitutional Convention.

We give below the complete copy of the Article on Railroads and Canals, as finally passed by the Constitutional Convention:

ARTICLE XVII.

OF RAILROADS AND CANALS.

SECTION 1. All railroads and canals shall be public highways, and all railroad and canal companies shall be common carriers. Any association or corporation organized for the purpose shall have the right to construct and operate a railroad between any points within this State and to connect at the State line with railroads of other States. Every railroad company shall have the right with its road to intersect, connect with or cross any other railroad, and shall receive and transport each the other's passengers, tonnage and cars, loaded or empty, without delay or discrimination.

SEC. 2. Every railroad and canal corporation organized in this State shall maintain an office therein, where transfers of its stock shall be made, and where its books shall be kept for inspection by any stockholder or creditor of such corporation, in which shall be recorded the amount of capital stock subscribed or paid in, and by whom, the names of the owners of its stock and the amounts owned by them, respectively, the transfers of said stock, and the names and places of residence of its officers.

SEC. 3. The power to tax corporations and corporate property shall not be surrendered or suspended by any contract or grant to which the State shall be a party.

SEC. 4. All individuals, associations and corporations shall have equal right to have persons and property transported over railroads and canals, and *no undue or unreasonable* discrimination shall be made in charges for or in facilities for transportation of freight or *passengers within the State or coming from or going to any other State*. Persons and property transported over any railroad shall be delivered at any station at charges not exceeding the charges for transportation of persons and property of the same class in the same direction to any more distant station. But excursion and commutation tickets may be issued at special rates.

SEC. 5. No railroad, canal, or other corporation, nor the lessees, purchasers or managers of any railroad or canal corporation, shall consolidate the stock, property or franchises of such corporation with, nor lease, purchase, or in any way control any other railroad or canal corporation, owning or having under its control a parallel or competing line, nor shall any of the officers of such railroad or canal corporation act as an officer of any other railroad or canal corporation owning or having the control of a parallel or competing line; and the question of such competition shall, when demanded by the party complainant, be tried by jury.

SEC. 6. No incorporated company doing the business of a common carrier shall, directly or indirectly, prosecute or engage in mining or manufacturing articles for transportation over its works, nor shall such company, directly or indirectly, engage in any other business than that of common carriers, or hold or acquire lands, freehold or leasehold, directly or indirectly, except such as shall be necessary for carrying on its business; but any mining or manufacturing company may carry the products of its mines and manufactories on its railroad or canal not exceeding fifty miles in length.

SEC. 7. No president, director, officer, agent or employe of any railroad or canal company, shall be interested directly or indirectly in furnishing material or supplies to such company, or in the business or transportation as a common carrier of freight or passengers over the works owned, leased, controlled or worked by such company.

SEC. 8. No discrimination in charges or facilities for transportation shall be made between transportation companies and individuals, or in favor of either, by abatement, drawback or otherwise, and no railroad or canal company, nor any lessee or manager or employe thereof shall make any preferences in furnishing cars or motive power.

SEC. 9. No railroad, railway, or other transportation company shall grant free passes or passes at a discount, to any person, except officers or employes of the company.

SEC. 10. No street passenger railway shall be constructed within the limits of any city, borough or township without the consent of its local authorities.

SEC. 11. No railroad, canal or other transportation company, in existence at the time of the adoption of this article, shall have the benefit of any legislation by general or special laws, except on condition of complete acceptance of all the provisions of this article.

SEC. 12. The existing powers and duties of the Auditor General in regard to railroads, canals and other transportation companies, except as to their accounts, are hereby transferred to the Secretary of Internal Affairs, who shall have a general supervision over them, subject to such regulations and alterations as shall be provided by law; and in addition to the annual reports now required to be made, said Secretary may require special reports at any time upon any subject relating to the business of said companies from any officer or officers thereof.

SEC. 13. The General Assembly shall enforce by appropriate legislation the provisions of this article.

SECOND EDITION.

Four O'Clock.

NEW YORK.

Labor Seriously Affected by the Late Panic.

POLICE JUSTICES CONFIRMED.

The Proposed Resumption of Silver Payments.

NEW YORK, October 25, 1873.

Search for an Accomplice of Phelps.

It is rumored that State Treasurer Rains and the District Attorney of Albany were in the city last evening looking for the accomplice of Phelps, the defaulting cashier, and expecting to secure one hundred and forty thousand dollars of the missing money.

The Proposed Resumption of Silver Payments.

The proposed resumption of silver payments by the Treasury caused many applications to-day at the Sub-Treasury for the conversion of legal tenders and fractional currency into silver coin, but the Assistant Treasurer has not yet received any instructions from Washington.

A prominent officer in the Sub-Treasury said that one hundred thousand ounces of fine silver were purchased in this city early in the week, and had been forwarded to the mint at Philadelphia. This amount would furnish about $124,000, the difference occasioned by one-tenth alloy serving to offset the cost of coinage, and making the value of the coins to the Government no greater than that of the greenbacks with which the silver was purchased. The Superintendent of the Assay Office, on the contrary, said he was unaware of the purchase of silver, and did not think it could have taken place without his knowledge. From these several statements some think it looks very much as if this resumption of silver payments might turn out to be as great a farce as President Grant's letter to Mr. Williams.

Effects of the Panic on Labor.

The effects of the late panic are very apparent in the dullness of several ornamental trades, some of the manufacturers employing their men but eight hours a day, and paying them only a percentage of their wages. The employers, however, are daily expecting an improved state of affairs, and will not discharge their men, unless business becomes really unprofitable. The builders assert that the outlook for abundance of work is not very promising, and say they are absolutely compelled to reduce wages in order to carry on their business and reap a decent profit. The master masons announce that after November 1st next they will pay masons and bricklayers $3.50 a day and laborers $2.00. The men have not yet taken any action on the proposed reduction. The Bricklayers and Masons Union of this city is a very powerful organization, whose members have time and again dictated laws to the master masons. The prevailing sentiment among mechanics of all classes seems to favor a settlement of all questions of wages by arbitration rather than by strikes and kindred agitations.

Murder Cases.

The trial of Nathaniel Britton, for the murder of John A. Kace, in June last, in the yard of the Pennsylvania Railroad Company, in Jersey City, was concluded to-day, and resulted in a verdict of not guilty.

The Kelsey business has been disposed of for the present by the coroner's jury finding that Charles G. Kelsey came to his death by brutal treatment on the night of November 4th, 1872, at the hands of persons unknown to the jury. The jury also find that a number of persons named aided and abetted the outrage.

James Cody and James Murray have been implicated by the coroner's jury in causing the death of John McLaughlin, a vagrant, in the unfinished building in Monroe street, the other night.

A similar body has found that Thomas Clark shot Martin Gettins, but that he was only firing recklessly, not intending to kill.

Trial of Stokes.

The trial of Stokes was continued to-day, when a brother-in-law of Mrs. Morse, who was intimate with Fisk, testified that he never saw him with a pistol pocket in his pantaloons.

Dr. Wood said he would not say Fisk's wound was necessarily fatal.

Recorder Hacket testified that he saw Stokes, before the shooting, standing on the step of the Grand Central Hotel, looking apparently excitedly up the street. He spoke to Stokes, but no answer was made.

An officer of the court was dressed in Fisk's clothes, and the position of the bullet holes in the cloak examined.

Fighting for a Dead Man's Estate.

George Harlin, an Irishman, and formerly an importer of Irish linens and recently an operator in stocks, died intestate, March 6, 1872, leaving a wife, but no children, and an estate valued at a million and a half of dollars in stocks, bonds and other personal property. At ten his death, A. F. Trowbridge and his widow, Elizabeth Harlin, took out letters of administration upon the estate, which is now claimed by nephews and grand nephews, on the ground that he was never legally married—that he merely placed a ring on the woman's finger and called her his wife.

A Suspended Firm Resuming.

In view of the depreciation in Wall street to-day, the announcement is gratifying that the well-known dry goods firm of Peake, Opdyke & Co., who suspended just three weeks ago, at the time of the panic, will resume business on Monday next. The event will doubtless contribute greatly to the restoration of business confidence.

Proceedings Against a Railroad Stopped.

Prosper P. Shaw, one of the directors of the New Jersey Southern Railroad, who brought suit against the company for seventy thousand dollars, having made call loans to the road amounting to one hundred thousand dollars, says he intends to take no further steps in the proceeding, being convinced that the road can be made to meet all liabilities and become a profitable enterprise.

Hoboken Savings Bank.

The *Evening Mail* says: "Several directors of the Hoboken Savings Bank have, during the last three or four days, made extensive transfers of property. In view of their action, county clerk Kennedy, who has $8,000 on deposit in the bank, made a peremptory demand for his money, he did not get it, and will, it is said, throw the bank into liquidation."

Keepers of Disorderly Houses Arrested.

Under the indictments found by the Grand Jury, a number of keepers of disorderly houses have been arrested. Gambling houses are to receive similar attention.

Police Justices Confirmed.

The Mayor's new nominations for Police Justices were confirmed by the Aldermen to-day, with one exception, Judge Bixby being substituted for one of the Mayor's men.

Bankruptcy Case Postponed.

The Kenyon, Cox & Co. bankruptcy case has been again postponed. It is said private negotiations are going on with a view to settlement.

Registration.

The registration to-day was 26,562, making a total of 123,710, against 149,010 in 1872, and 152,692 in 1871.

Specie Shipments.

The specie shipments to-day were $239,126 in silver bars, and $112,000 in gold bars.

NEW YORK, October 26, 1873.

A Poisoned Wife.

Mrs. Capt. Samuel M. Smith, to whom it is alleged poison was administered by her servant at the request of her husband, lies in a critical condition, and her physician says her recovery is tremely doubtful. An investigation will begin to-morrow.

Effects of the Financial Troubles.

The effects of the late financial troubles are beginning to be felt among the working classes. In many trades a large number of operatives were discharged at the close of the week for the want of employment or for the want of funds to pay them. Three shoe manufactories closed on Saturday night indefinitely. The employes in one establishment were offered work at reduced wages, but the men declined to work for wages below those established by the Crispins Society, and were consequently discharged. Nearly every trade is affected similarly.

YANKTON.

Wintermute's Bail Fixed at $50,000.

YANKTON, D. T., October 25.—In the District Court, this afternoon, Wintermute, who killed Gen. McCook, was brought to the bar and pleaded "not guilty" to the indictment charging him with manslaughter. Judge Barnes then decided to admit him to bail, and fixed the amount at $50,000, which it is probable the prisoner will furnish.

A Priest Swindled in a Trade.

LOUISVILLE, KY., October 25.—An elegantly dressed gentleman, of the "cartem" get up, approached a Catholic priest of this city on the Jeffersonville and Indianapolis train coming here this afternoon, and succeeded in exchanging two bogus twenty dollar gold pieces for thirty-five dollars currency. He then passed out of the car, picking another passenger's pocket of fifteen dollars, and left at the first station—Glenwood. The priest only discovered the imposition on showing the results of the trade to the conductor some time after.

The Senatorial Transportation Committee in Cincinnati.

CINCINNATI, October 26.—Senators Windom, John Sherman, Roscoe Conkling, F. Norwood and H. G. Davis, the Senatorial Committee of Transportation, arrived in this city to-night from Huntington, and will go from here to Louisville, and thence to St. Louis. Hon. T. Hereford, of West Virginia, and Col. L. Corrington and Tobeil, of Richmond, accompanied them, also Major Harris, engineer of the Chesapeake and Ohio Canal.

—It is said that the German Government has two cavalry officers with the Carlist headquarters in Spain.

THE CAPITAL.

$200,000 in Silver to be Issued this Week.

UTE INDIANS GOING ON A TOUR.

WASHINGTON, October 25, 1873.

The Contemplated Issue of Silver Coin.

The Secretary of the Treasury, relative to the contemplated issue of silver coin to take the place of currency in making payments by the departments, says he does not know exactly how much will be paid out. He expects it will be convenient for him next week to issue about two hundred thousand dollars in the regular course of business, but this will depend somewhat on circumstances. If gold should go up, silver would not be paid out, nor would it be if it was to be sold again to bankers for speculative purposes. It is not to be expected that the Treasury will begin just now to pay out silver coin for every purpose, and thus exhaust immediately the entire amount held by the Government. One vivid illustration of the manner of making such payments was presented by the Secretary to day, who said that if a person should present a check for $255.40, the chances were that he would receive five dollars and forty cents of the amount in silver. The determination of the department is to issue silver to whatever extent it can be conveniently done, and as there is bullion sufficient to coin about $200,000 within a week, this will be used as a beginning.

Important Decision.

The Attorney General has decided that the United States is bound to keep the dams of the line of water communication between the Wisconsin and the mouth of the Fox river in reasonable repair, and that mill owners have no right, such as is being done, to reduce the water so as to interfere with the purposes of navigation.

Railway Postal Service.

Since the 30th of June last 2,417 miles of new railway postal service has been put in operation, making a total of 65,686 miles of such service in the United States.

Appointments.

P. S. Adams has been appointed Internal Revenue Gauger for the Eighth Illinois district, and Benj. Cummings for the Sixth Kentucky district.

Legal Tenders Outstanding.

The outstanding legal tenders amount to $360,284,8 88.

WASHINGTON, October 26, 1873.

Ute Indians Going on a Tour.

The Ute Indian delegation will soon leave on a tour through the principal cities, in order to be suitably impressed with the magnitude and power of the white man's country.

Congressmen Arriving.

There are at least a dozen Congressmen now here. Some of them have been at the Treasury, obtaining information, with a view to legislation on the subject of currency during the coming session.

Gen. Porter's Business Office.

General Horace Porter denies the report that he removed his business office and residence to Chicago. He will remain in New York.

WEATHER REPORT.

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER,
WASHINGTON, D. C., 7:30 P. M., Oct. 26, 1873.

Probabilities for To-day.

The storm on Lake Huron will probably move northeastward over Canada, accompanied by southwesterly winds, and rain on the lower lakes.

For Monday, in the Southern States, southeasterly winds, backing to southwest, northwesterly winds, with cloudy and clearing weather.

For the Middle States, southeasterly winds, cloudy weather, and possibly rain, with somewhat higher temperature.

For New England, easterly winds, cloudy and rainy weather.

Cautionary Signals

continue at Milwaukee, Grand Haven and Chicago.

THE RIVERS.

CINCINNATI, October 26.—River seventeen feet; rising. There was a brisk rain all day. There is a prospect of its continuance over night.

LOUISVILLE, KY., October 26.—The river has risen twenty-four inches in the twenty-four hours ending at six o'clock this evening, and is rising at the rate of half an inch per hour. The packet companies start out their large boats on Wednesday. The steamer John Howard is the first boat for New Orleans on Tuesday. The new canal will be opened in a day or two. Arrivals—General Buell, Cincinnati. Departed—General Buell, Cincinnati: Laura Davis, Henderson.

LOUISVILLE, KY., October 25.—Steam was raised to-day for the first time on the new Illinois Central railroad transfer steamer, built by Howard & Co. Her machinery will be tested on Monday, and when the water permits she leaves for Cairo. The steamer Robert Mitchell is to be put as a regular packet in the Louisville and New Orleans trade.

MEMPHIS, October 26.—The river rose three inches to-day. Arrived—Grand Tower and Bannock City, St. Louis. Departed—Bannock, White River; Grand Tower, St. Louis. Weather warm, with a heavy rain during the day. No business.

ST. LOUIS, October 26.—Arrived—Lake Superior, Keokuk; Kountz, Missouri river; John A. Scudder, Vicksburg; Maggie, Illinois river; Chester, Memphis. Departed—Lake Superior, Keokuk. River stationary here; rising above. Heavy rain and cool.

CAIRO, ILL., October 26.—Arrived—City of Helena, Vicksburg, 2 A. M.; City of Chester, Memphis, 3; Belfast, St. Louis, 2 P. M.; Colorado, St. Louis, 3. Departed—Chester, St. Louis, 6 A. M.; Helena, St. Louis, 7. River fallen 3 inches. Light rain all day; mild.

EVANSVILLE, October 26.—Cloudy; rained steadily and pretty hard since 5 A. M.; prospects of continuing. River risen 2½ inches. Down—Burkesville, 6 A. M.; Bransford, 10.

NASHVILLE, October 26.—River still rising; twenty one inches on shoals. Raining all day; prospects of a big rise. Weather warm.

EVANSVILLE, October 26.—Up—Frank P. Gracey, 11 P. M. No business.

POLITICAL.

The State Election in Ohio.

COLUMBUS, October 25.—Official returns have been received from all but one county, and they insure the election of all the candidates on the Republican State ticket except the Governor.

Marine Disasters.

HAVANA, October 26.—The brig Cascatiller arrived at Sagua. She reports having picked up, on the 9th inst., a man who is the sole survivor of the crew of the English brig Gamy, from Future Island for Boston, salt laden, which foundered at sea.

The captain and crew of the British bark Carona have arrived here. The vessel was lost in the storm off Tabasco.

BRIEF TELEGRAMS.

—Hon. Wm. Stodden, of Springfield, O., died on Wednesday afternoon.

—Fifty one cars of tea went East from Omaha, over the Rock Island road, last Friday.

—At Lunenburg, N. S., Peter Mailman was sentenced to be hung on the 30th of December for the murder of his wife.

—The citizens of various cities are making great efforts to secure money and supplies for the yellow fever sufferers at Memphis.

—Judge Samuel W. Fuller, one of the oldest and ablest members of the bar of Chicago, died at his residence there on Saturday morning.

—The Newburgh Steam Mills, owned by Garnier & Co., of New York, have stopped, throwing four hundred persons out of employment.

—Alexander T. Helmes, bookkeeper with Hardy Bros., commission merchants of Baltimore, has been arrested on a charge of forgery.

—The Danforth Locomotive Works in Paterson, N. J., employing five hundred hands, will soon stop; also Strange's silk works, now running half time.

—At Evansville, Ind., on Sunday evening, John Walteridge was cut in the abdomen by Peter Dashback, at a saloon. The wound is pronounced fatal.

—John F. Garner was indicted last Saturday for the murder of Almon G., Emma A. and Willie A. Gordon, at Thorndale, Me., on the 16th of June last.

—Two children of R. W. Corwine, living near Cabondale, Ill., fell into a tub of boiling water on Wednesday evening. One died and the other cannot recover.

—Shaw, who was convicted at Sandy Hill, Washington county, N. Y., of the murder of his wife and children by poison, has been sentenced to be hanged on Friday, November 28th.

—A dispatch from Oconomowoc, Wis., says Mr. C. Waite, son of Rev. D. Waite, of Milwaukee, was crushed to death while attempting to board a passing freight on Sunday morning.

—The Atlantic Mills at Lawrence, Mass., have commenced running four days in a week, and the nail mills of the Bay State Works have suspended, making necessary the discharge of 260 men.

—A dispatch from Cohoes, New York, says the closing of the Harmony Cotton Mills was not owing to financial difficulties, or anything else connected with the money stringency. It is merely in accordance with an annual custom.

—George Wolf, a wealthy farmer, residing three miles from Hopkinsville, Ky., was assassinated in his bed last Wednesday night. Mr. Wolf was fifty-three years old, and had recently married a young wife, with whom he lived unhappily.

—The jury in the case of Joshua Puffenberger, engineer of the freight train on the Chicago and Alton railroad which caused the disaster at Lamont, in August last, and who had been indicted for manslaughter, returned a verdict of "not guilty."

—The coroner's inquest in the case of Mrs. Eunice McCool, found dead on the sidewalk under a window of her late residence in Chelsea, Mass., has resulted in the holding of her son, his brother-in-law and another on suspicion of causing her death.

ST. LOUIS.

Irregularities Among Government Officials.

ST. LOUIS, October 25.—A pamphlet has appeared here purporting to have emanated from John W. Wright, of Washington, formerly Indian Agent, and against whom indictments were found in the Criminal Court last March for forging vouchers, upon which a number of Indian claims were paid by the Interior Department, which charges the United States Government with prosecuting him unjustly, and implicates Attorney General Williams and the Secretary of the interior in the scheme to rob him of his property to satisfy groundless claims. It appears that Attorney General Williams sent one A. J. Williamson, of the Interior Department, out here to have Wright indicted in the State Court, his prosecution having been delayed so long that the indictment in the United States Court was prevented by the statute of limitation. This was done through Colonel J. C. Normile, Circuit Attorney of the Criminal Court, and United States District Attorney Patrick was instructed to assist in the prosecution of the case. Subsequently Patrick seems to have suspected Colonel Normile's fidelity, and wrote a private letter to the Attorney General charging him with incompetency, being unwilling to allow him (Patrick) to assume control of the case, and being friendly towards Wright in consequence of the non-receipt of a retainer he had stipulated for with Williamson. The pamphlet also contains a letter from Williamson to Attorney General Williams, in which he proposes that the Government shall open letters passing through the mails to ascertain if Normile is in correspondence with Wright, and to employ an agent to pack the jury in Judge Primm's Court, which he intimates can be easily done. Colonel Normile has written to Attorney General Williams denying emphatically all the charges in District Attorney Patrick's letter, and giving a full history of the case as far as it has gone, and Judge Primm also sent an indignant letter to the Attorney General, effectually disposing of Williamson's insinuations. The pamphlet is not yet published, but it has created great excitement in legal circles. The letters from Patrick and Williamson to the Attorney General are said to have been surreptitiously obtained from the Attorney General's office, through the connivance of two clerks who had been discharged.

United States District Attorney Patrick, in an interview to-day, stated that he had nothing to withdraw from the letter written by him to Attorney General Williams, and printed in J. W. Wright's pamphlet. He also stated that the letter purporting to have been written by Special Agent Williamson is pronounced by that gentleman to be a gross forgery, and that Attorney General Williams had recently told him (Patrick) that no such letter had ever been received at his office. Patrick is of the opinion that Wright's object in publishing his pamphlet was to create a public sentiment here and elsewhere against the good faith of the Government in its prosecution of him, and also to occasion such relations between the Government and the officers of the Criminal Court here as would render it probable that the Government would discontinue its prosecution against him in that court.

Protest Against the Report of the Engineers on the Bridge.

Several prominent St. Louisans telegraphed to President Grant, asking him to protect the greatest interests of this city by recalling the Secretary of War's approval of the report of the Committee of Engineers on the St. Louis bridge, asserting that the bridge company was not permitted to be heard, while testimony was received on the other side. The President replied that the approval amounts to no more than that the whole subject shall be referred to Congress, and less could not be done.

KEYSTONE BREVITIES.

THE Cambria Iron Company, of Johnstown, is only paying part cash to its employes.

MICHAEL MCANDREWS, miner, and Thomas Welsh, laborer, were injured by a fall of roof at the Hyde Park mine, near Scranton, Thursday. McAndrews' skull was broken and Welsh was injured about the chest.

THE farms of E. R. Eldred, Mrs. Amanns and Mrs. Bessy, on the Conewango Creek, about two miles above Warren, comprise the tract that has been chosen as the site for the Northwestern Hospital. It cost the State $34,000.

WADE, the Williamsport murderer, told a visitor recently that "he would see some fun one of these days." This villain has become so expert at slipping handcuffs and breaking chains, that a constant guard is necessary.

ON Thursday afternoon the boiler house at the wells on Dempsey farm, Kane City, owned by C. E. Bishop, was burned. One of the wells began flowing through the casing, sending the oil through the gas pipe into the furnace and setting the building in a blaze.

A YOUNG man named Silas Bolton, of Johnstown, had his leg taken off on Friday, near Homerstown, Cambria County. In attempting to get on a train which was in motion, he missed his footing and fell, the wheels passing over his leg near the ankle, mashing it to a jelly.

ONE of the employes at the Stower's packing house, Scranton, had a narrow escape from death on Wednesday last. His clothes caught in the shafting, which was in rapid motion, and the man was whirled around a dozen times before he was extricated. His injuries, remarkable to state, were slight.

THURSDAY morning the engine house of the Mohawk well, on Troutman farm, owned by Bostwick, Reineman & Lecky, caught fire, and the entire rig was destroyed. The tanks and oil were saved. The fire originated from gas accumulating in the engine house and communicating with the furnace.

UDDERZOOK, who is now on trial at West Chester, for the murder of Winfield S. Goss, looks well, and, indeed, if any change has taken place in his physical organization, since his arrest, it is that he is more fleshy, thus showing that if guilty he seemingly is fattening upon the remembrances of his bloody crime.

AT A meeting of the iron manufacturers of Sharon, held recently, it was decided to pay their employes in notes, payable four months from the date of pay day, bearing interest, some at six, and others at eight per cent. Owing to the scarcity of currency, this action was deemed necessary, and it is reported that the measure gives satisfaction to all concerned.

Two little girls named Levan were drowned at Girardville, on Monday night. They were in a carriage returning from a funeral, with their parents, when owing to the darkness the carriage was precipitated over the edge of the road into the roaring, swollen creek. The parents saved themselves with great difficulty but the little ones were drowned. Mrs. Levan had an infant in her arms which was saved.

THE Clarion *Democrat* says a most brutal and fiendish act was perpetrated in Elk township, Clarion county, last Thursday night. Thomas K. Kahl had some parties arrested a few days before for malicious mischief, stealing chestnuts, etc. They were fined by the justice, and at the time made some threats. On Friday morning Mr. Kahl found one of his horses, a valuable young animal, with the tongue cut out, and so brutally was the work done, that the horse had to be killed.

WILLIAM MEEKER, aged thirty-four years, hung himself in his barn at Linesville, Crawford county, on Thursday morning last. He seemed to have had no idea of committing suicide when he left the house a short time before his lifeless body was discovered, and talked cheerfully to his wife of his plans for the next day. The rope was tied to a beam six feet from the floor, and strangulation was accomplished by raising his feet from the floor and settling his weight on the rope.

LAST Spring the Democrats of Oil City nominated a colored man named Green for Councilman, and he was elected by a full Democratic vote, the Republicans accepting the situation and giving their support also, which resulted in an overwhelming majority. This year Mayor Sowers was elected to the office of County Treasurer. By a provision of the local law of Oil City, whenever the office of Mayor is made vacant, the Councilman receiving the highest number of votes becomes Mayor *ad interim*. So the people of Oil City are reconciling themselves to the prospect of a colored Mayor for the time being.

FEARS are beginning to be entertained in and about Johnstown that the Cambria Iron Company will have to suspend operations ere long, the demand for steel and iron rails having almost entirely ceased, on account of the panic in monetary matters. Mr. D. J. Morrell, the General Manager, has published the following card, which fully explains itself:

CAMBRIA IRON WORKS,
JOHNSTOWN, PA., October 23, 1873.

The Company finds it impossible to make collections for iron sold, or to sell for cash, or to raise money in any other way to make the usual monthly cash payments, and therefore finds it necessary to give notice to those of its employes to whom cash balances are now due, that they shall be paid as soon as money can be obtained. In view of the uncertainty of obtaining orders on any satisfactory terms to keep the works running, we feel it incumbent upon us to give notice that, while the Company will guarantee to its employes all necessary supplies to the extent of their earnings, no regular cash payments need be expected until times improve, and cash can be obtained for the products of the works. All employes of the Company not satisfied to continue in its service upon the conditions above stated will give in their notice, when they will be paid off in full, as soon as funds can be procured for that purpose.

PENNSYLVANIA ELECTIONS.

The Official Returns Announced.

The following are the totals of the vote cast at the election held in Pennsylvania, October 14, 1873, for Judge of the Supreme Court and State Treasurer:

FOR JUDGE OF SUPREME COURT.

Isaac G. Gordon (Republican)	240,325
James R. Ludlow (Democrat)	225,941
Gordon's majority	14,291
Total vote	466,166

FOR STATE TREASURER.

Robert W. Mackey (Republican)	244,823
Frank M. Hutchinson (Democrat)	219,471
Mackey's majority	25,352
Total vote	464,294

The vote is very much below those of 1872, the election being that of an "off year." Here is a comparison:

	Repub.	Dem.	Total.
1872, Gov.	353,387	317,760	662,400
1872, Pres.	349,589	211,841	563,060
1873, Sup. J.	239,023	225,939	466,166
1873, St. Treas.	243,472	219,482	464,294

It is evident that nearly two hundred thousand voters failed to turn out at the last election.

OIL INTELLIGENCE.

New Strikes and Highest and Present Yield at Millerstown.

A well owned by George V. Forman, of Oil City, on Myers farm, Millerstown, finished on Wednesday, and supposed likely to prove dry, now bids fair to be good for five hundred barrels.

Phillips Brothers finished a well on the Barnhart farm, south of the Myers, on Friday. It is reported flowing briskly, some estimating its yield at over one hundred and fifty.

The Blackhawk well, on Troutman farm, owned by Wm. Vandergrift and other Oil City parties, was torpedoed Friday, and its production largely increased. It is reported flowing at the rate of fully twenty barrels an hour.

The following table shows the highest production of each farm as compared with the present yield:

Name of Farm.	*Highest Yield.*	*Present Yield*
Ford	170	170
Jos. Campbell	100	100
Moore & Hepler	450	400
Deats	75	75
Myers	600	400
Kepple	300	250
Nolan	150	150
Daubenspeck	1,300	1,000
Stewart	800	600
Frederick	300	200
Hemphill's	1,300	1,185
Widow Hemphill	500	400
Farquer	200	200
McDermott	850	800
Barnhart's	2,000	1,800

—The jury in the case of Palmer vs. the City of Concord, Mass., to recover seventy-six thousand dollars damages for newspaper property destroyed by a mob in August, 1861, gave a verdict for the city.

IF PRAYING will produce a monarchy in France, it is to be developed forthwith. Bishop Dupanloup has directed his clergy to offer prayers for the monarchy, which means, of course, the election of Count Chambord to the throne.

AS WE anticipated, the several members of the National Board of Trade have their pet theories, regarding the resumption of specie payments, and one was found ready to urge the obsolete idea, of contracting greenbacks. Just how greenbacks can be contracted, at the present, more than they are, is a problem of no small magnitude. An old cook book, treating of the best manner of dressing a hare, wisely begins: "first catch your hare." To greenback contracters we would say,—"first find your greenbacks."

WE are in receipt of a copy of the debates of the Constitutional Convention, containing the remarks of Hon. J. N. Purviance, pending the consideration of the report of the Committee of Seven on the railroad article. The article on Railroads having been finally adopted, it is not necessary to publish this excellent speech. Mr. Purviance is making for himself a fine record, as one of the most sagacious and outspoken of our members. Governed by conscientious considerations, he follows out his convictions with voice and vote.

ANDY JOHNSON ventilated his views at Washington in a rambling speech, the gist of which we have published as a conversation, held with a reporter, some days ago. He evidently carries with him his old loves and hates, and is still Andy Johnson, pure and simple. The Constitution, the danger of Cæsarism and the Elective Judiciary, were his particular points. He still imagines that he, and he alone, is the great friend and protector of the Constitution. In Johnson's financial misfortunes we express sympathy. For his political vagaries we have no particular respect.

THE New York *Times* devotes an editorial article to the discussion of "South eastern Pennsylvania, the area bounded by the irregular range of hills or mountains through which the Delaware cuts its way at the Water-gap, and which forms the Southern border of the anthracite region—the Delaware river—the Southern boundary of the State—and a North and South line passing a little West of Harrisburg." According to the *Times*, the wealth of this region is quite exceptional. It includes the whole of eleven counties, and parts of two or three others, and contains rather more than six thousand square miles. The population, according to the census of 1870, was, exclusive of Philadelphia, about three-quarters of a million. The aggregate animal farm products were, according to the same authority, about seventy million dollars. The total estimated value of coal and personal property outside of Philadelphia was about eight hundred million dollars, an average of about $1,067 to each inhabitant. A corresponding estimate in regard to the whole State of New York, outside of New York City, assigns to each inhabitant an average of $876.79, and to the whole of Pennsylvania, excepting Philadelphia, an average of $913.67. Four counties, Lancaster, Montgomery, Delaware and Northampton, show an aggregate value of farm products of $17,385,951, and of manufactures, of $55,987,039.

THE RAILROAD ARTICLE.

The Constitutional Convention has completed the Railroad Article, and, we are gratified to say, it embodies, as now framed, not only the views of the GAZETTE, as regards the discriminating clause, but in other particulars as well. In place of the "no discriminations" of the old article, we have "no undue or unreasonable discriminations" in the new. The fifty mile feature is stricken out, and the section bearing on this subject avoids the fatal feature of the old section,—that of trespassing on the power of Congress to regulate commerce between the States. But the great work of the Convention was to regulate and control railroads, so that they will not unjustly discriminate in charges, nor delay the goods or freight of one man, and hurry forward those of another, nor engage in anything else than properly belongs to them as common carriers. All this—every essential feature of the first report—is embodied in that now adopted, and in a way that will stand legal examination, and the article is, at the same time, greatly abbreviated and more dignified in expression. We do not hesitate to say that it is in every way superior to the original article, and we are gratified that it was adopted by a nearly unanimous vote. It is as nearly right as such an article could, under existing circumstances, be well made.

SPECIE PAYMENTS.

It is now quite evident that we are to have silver in use for specie paying purposes, within a very brief time. Shipments are already beginning to be made from the Philadelphia mint to banks, and arrangements are in progress to coin large amounts. This is a gratifying event, on several accounts,—but more than else because it indicates, not merely that we are passing out of the panic, but that we are getting free from the depression caused by the civil war. If we maintain the balance of trade with Europe in our favor, the resumption of gold payments is near at hand,—and with it, a sounder condition of finances than this country ever had before.

If matters continue to improve, as they have for a time, Congress will have but little to do with financial issues when it meets. There will be a demand for free banking, or the repeal of the reserve clause of the National Banking Act. We incline to think that this will pass. Either the reserve clause will be simply repealed, the Government merely securing the bill-holder, or we shall have free banking. We would rather see the reserve clause abolished than to have the doors thrown too widely open; yet if the bill-holders are made secure, as is now the case, there will be but little danger. We strongly incline to the belief that the reserve has been pretty well out for some time past. Conservatism, as regards banks, should be the policy of the Government. It is an open question, however, whether that conservatism should take the form of a refusal to issue more currency, or of ceasing the oversight of banks heretofore maintained. It is undeniable that the rigid inspection of banks, and more than this, the fact that an officer of the Government could at any moment walk in and investigate the books, that made our National banks so careful and safe, during the ten years past. It aided popular confidence, too. But with the changed condition of things, so near at hand, it begins to be considered an open question whether the banks should not be let up.

FRENCH AFFAIRS.

The rapid minor changes which are constantly occurring in the politics of France make it proper that we briefly refer to the situation as it is at the present. The National Assembly will convene early in November, and the chief interest of the session will be the vote relative to the monarchy. A majority in the Assembly, it is affirmed, desire the restoration of the Monarchy, while a majority of the people prefer the Republic. Of those in the Assembly who wish a Monarchy, there is a division of sentiment as to whether the Monarchy shall be simply declared, leaving the selection of the governing house to the people, or Count Chambord be declared at once the ruler, under the title of Henry V. Prince Napoleon has formed a strong party, in alliance with the Republican elements, in favor of the submitment of the subject to the people, hoping to receive a larger vote than Chambord. But Napoleon, in the prosperous days of the Empire, was an avowed free-thinker, socialist, and free-liver, not to say worse, and scandalized the Church by using fast days for his wild carousals. Having managed to get to the front, as the representative of the Napoleonic dynasty, the Church authorities are actively hostile to him—a circumstance of doubtful value in France.

On the other hand, Count Chambord is so sure of the throne that he is already in diplomatic intercourse with foreign powers, seeking to assure them of a peaceful policy, should he gain the throne. This is in response to the fear known to exist, that he will champion the cause of the Pope, and seek his recovery of temporal power. In the diplomatic world, Count Chambord's assurances do not pass for much. It is known that there are letters of his in existence which commit him far more fully to Ultramontane ideas than he is now willing to admit. It is more than suspected that Cardinal Antonelli has interposed to check the exuberance of Chambord, in his declarations of fealty to Rome. But already there is an undercurrent of distrust toward him. It is quite certain that if France must have a sovereign, it will prefer one of the Catholic faith, but not of Ultramontane proclivities. Prince Napoleon is not in good odor with the clerical party, and Chambord is out with the Liberals, and even with Conservative Catholics. Such is the clerical side of the present agitation.

There are other difficulties of a purely political character. The personal strength of the Monarchial movement has been understood to gather around Chambord. But he and his family have been so long strangers to the monarchial power, and were such sticklers for their rights when in power, that there is an obvious reason why even the moderate Monarchists should know where he stands on certain political issues. About a fortnight since the Monarchists felt obliged to present to the Comte de Chambord representations which constitute neither more nor less than an *ultimatum*, most respectful and deferential, it is true, but still an *ultimatum*, upon which, if he does not make a satisfactory reply, the prospects of the Monarchy, lately so bright, will be wrecked for an indefinite period, if not forever. This is a truly melancholy prospect, and all the more so that up to the present date the Count seems to adhere to the statement recently attributed to him: "The object of all these solicitations is to do violence to my conscience and my liberty; but I cannot become an Orleanist, nor declare myself the successor of Louis Philippe."

This may be consistent, and in one view, praiseworthy, on the part of Chambord. It is equivalent to declaring that if he succeeds to the throne, it must be without pledges, and here he is at variance with the views of his moderate supporters. The day when the people will trust those who aspire to Kingly honors, has gone by. They want to know on what principle they are to be governed. And hence the practical refusal of Chambord to answer questions is not satisfactory, and there is a division among his supporters. Out of all this grows another possibility—the extension of MacMahon's term as President for three years. This is seriously thought of, and is among the probabilities should the moderate monarchists not be satisfied. This prolongation of the Republic will give those of that faith the opportunity to consolidate their strength, and provide against future agitations of the Monarchy. We speak of this merely as a possibility—a probability at most. The chances are that the expectant King will yield to the demands of the moderates, rather than lose his throne. It will be something remarkable for a Frenchman to be so sensitive of his honor, as to refuse to yield to a fair demand, at the expense of a throne. It may seem disgraceful to Chambord, that an Orleans should enter into pledges, but the temptation of the throne will compel even the sensitiveness of the heir of the Bourbons to give way—and he will thus consolidate the vote of his immediate followers, and the moderate monarchists upon himself. Such is the outlook now.

POLITICAL NOTES.

THE official majority in favor of one capital in Connecticut is 6,107.

EX-GOV. SEYMOUR has declined the nomination for the Assembly.

PRIVATE DALZELL, of Ohio, is a candidate for Postmaster of the United States House of Representatives, and his friends are at work to secure it for him.

THE latest Iowa returns indicate that Carpenter's majority will be 20,000. The Senate will be 36 Republicans, 14 opposition, and in the House the opposition will have 2 majority.

THE Michigan Constitutional Convention, after a long discussion, has adopted a provision for licensing the sale of liquor. The license fee is to be $300, and is to go to the poor fund.

IT is said the Democracy of Ohio are not as much in favor of civil service reform now as they were before Allen was elected. They demand the Jacksonian rule—"To the victors belong the spoils."

THIS is very ungrateful in the Cincinnati *Enquirer*: "They celebrated our little victory in New York on Tuesday with 100-guns. If they are Tammany gunners we don't care much for the compliment."

GEN. BANKS has consented to become an independent candidate for the Massachusetts Senate from the Second Middlesex district. Dr. George B. Loring has been nominated for the Senate by the Republicans of the Second Essex district.

MR. A. H. H. STUART, President Fillmore's Secretary of the Interior, in a speech at Richmond, Va., last week, advocated the forcible removal of the negroes to Santo Domingo, and declared his belief that President Grant's idea in advocating annexation was to provide a place for negro colonization.

AMOS H. MYLIN, of Lancaster county, is a candidate for Speaker of the House of Representatives. The Harrisburg *State Journal* says: "He was a member of the last House, and is a man of marked good judgment, sound ability, and integrity. Added to this is the fact that Lancaster county, the wheel horse in the Republican team, has had very little, if any, recognition in State politics for some time, and therefore when she presents so good a man as Mylin it will be difficult to set her claims aside."

IN a congratulatory speech at Cincinnati the other night, Mr. George H. Pendleton made the astounding assertion that the crowning glory of the Democratic party has always been to maintain purity in legislation and honesty in administration. Apparently forgetting this, however, he said, later in his speech: "Let us show all the world—show it so plainly that even the blind shall see and the deaf hear—that the Democratic party has been purified in the fires of political misfortune; that in the discipline of the last fifteen years it has gained strength, nerve, purity, honesty."

THE number of Congressmen who have died since the elections last Fall is six, their names, politics and districts being as follows: Ambrose R. Wright, Democrat, of the Eighth District of Georgia, who never took his seat; Samuel H. Peters, Republican, of the Fourth District of Louisiana; William Whiting, Republican, of the Third District of Massachusetts; Wilder D. Foster, Republican, of the Fifth District of Michigan; James Brooks, Democrat, of the Sixth District of New York, and Jos. G. Wilson, Republican, of Oregon. Alex. H. Stephens has been elected to fill the vacancy in the Georgia Eighth District, and James W. Nesmith, Democrat, to fill that in Oregon. The Republicans have nominated Henry L. Pierce in the Third District of Massachusetts, and Wm. B. Williams in the Fifth District of Michigan. The Democrats have nominated Samuel S. Cox in the Sixth District of New York. The elections in the three districts last named will be held on Tuesday, November 4.

THE full returns show that the Republican majority in Iowa is less than at any previous election since the Democratic party was first beaten in the State, and the opposition have carried at least twenty-five counties, some of them being heretofore the most strongly Republican. A correspondent of the Chicago *Inter-Ocean*, who has been investigating the matter, gives a general review of the canvass, in which he shows that a special assault was made against Gov. Carpenter by the Grangers, and that denial and positive proof to the contrary of many of the charges to which he was subjected availed nothing in his favor. But to the Grangers was not due the result chiefly, as "this was year for breaking rings." On this point the correspondent says: "Every Iowa county seat has had its coterie of politicians, manipulators of the official wires, and setters-up and pullers-down of candidates. It is probable that at least nine counties out of every ten were under the control of such a management, and the special purpose of the Iowa election this year was to break up these combinations.

PERSONAL.

PROF. AGASSIZ is erecting several new buildings on Penekese Island.

BAEZ declines to run for another Presidential term in Santo Domingo.

BAZAINE has a large head, wears his hair short, and cultivates a light moustache and small imperial.

DONALDSON, the balloonist, is building a paper balloon, in which he proposes to attempt to cross the ocean.

A MARRIAGE is about to take place between Lord De Grey and Miss Brett, daughter of Mr. Justice Brett, of the English bench.

CHIEF JUSTICE APPLETON is said to be somewhat disgusted at the acquittal of Miss Mink at Rockland, as he charged directly against her.

SENATOR FENTON denies that he ever recommended the appointment of Cashier Phelps to a place in the Treasurer's office, and Mr. Raines corroborates the denial.

THE Comte de Chambord has given orders to a French horse dealer to purchase the horses and gala carriages necessary to celebrate the restoration of the throne within two months.

THE death of Dr. Walter Briscoe in Paris is announced. He is represented as an American of a sportive turn of mind, eighty years old and as having left a fortune of half a million.

A. H. DAVENPORT, the well-known actor, died last week at New Orleans, aged 44. He was a native of Stamford, Conn., and received a legal education, but chose the stage as a profession.

MR. WADDELL, of North Carolina, announces that he will soon be prepared to prove "from the most authentic sources that a civilized colony of Caucassians existed in North Carolina 2,000 years before Columbus was born."

"BLACK JACK BILL," "Prairie Joe," "Slim Sam Shaw" and "Grizzly Graham" are among the euphonious names of members of the Wyoming Legislature. And yet the State stands up nobly for woman's rights! Truly, "What's in a name?"

MLLE. ZAIRE THALBERG, the daughter of Thalberg, the pianist, is now in Paris, and her early appearance on the lyric stage is to be expected. It is said she promises to become as great a singer as her father is a pianist. Mlle. Thalberg is just fifteen, having been born in New York in 1858.

MISS MATTIE STEPHENSON, the brave Illinois girl, who left her home without consultation with any of her friends, believing it to be her duty to go as a nurse to Memphis, died at that place on Saturday last. She had exerted herself beyond her strength, and fell an easy victim to the pestilence.

THE Emperor William and Prince Bismarck visited the Vienna Exhibition last week. They expressed a particular desire to see the American machinery in motion and were conducted through the department of the United States, where they examined with interest several of the most curious inventions. As the Emperor approached the French department many of the exhibitors left the premises.

MRS. CHURCHILL, of Rhode Island, said of the Woman's Congress that while at the Boston Jubilee she heard one of Strauss' waltzes played, which was called "Wine Women and Song." She thought the association in the title was outrageous. But it was Dr. Luther who first uttered the sentiment:

"Who loves not Women, Wine and Song,
Has been a fool his whole life long."

ITEMS OF INTEREST.

IDA LEWIS, the Newport heroine, is slowly recovering from a dangerous illness.

A MAN in Wisconsin recently ruptured his lungs with a lung-testing machine, and died in a few hours.

THOMAS EIEM has been locked up in Jersey City since July last for the killing of Eugenie Aters in a quarrel. His wife has died of starvation.

THE Baltimore and Ohio Railroad has begun to run through postal and passenger cars between Washington and Chicago, twice a day, without change.

A SHEBOYGAN (Mich.) dispatch says the schooner Pulaski collided with an unknown vessel on the Straits last Friday night. She is leaking badly, and is otherwise damaged.

ANOTHER aeronautic "professor," Palmer by name, fell thirty feet from a balloon at the Pulaski county (Ind.) fair last Saturday, injuring himself so that he is not expected to recover.

THE amount of English gold thus far received at New York is about $7,500,000, the amount on the way about $8,500,000. Of the sums received over $5,000,000 went into the Assay Office for recoinage.

AN editorial on the Evangelical Alliance, which recently appeared in the New York *Times*, contained the phrase "satanic infidelity." It was afterwards discovered that "scientific infidelity" was intended.

A WASHINGTON dispatch says the amount of silver to be put out this week will be between two and three hundred thousand dollars, and should the demand exceed this, Secretary Richardson will issue more.

THE former landlord of Miss Mink, the heroine of the recent homicide trial at Rockland, Me., has presented to the town authorities a little bill for damages to the reputation of his property, including the item: "For murder and disgrace in the house, $10."

A DISPATCH from Forest, Canada, says a man, woman and child, with tickets from Chicago to Brockville, got off the train there on Friday, alleging that there were parties on board who wanted to kill them. They then went to a hotel, and later in the day the three jumped into a deep pool of water. The man and child were drowned, but the woman was saved.

ONE morning last week, at an early hour, a man standing on a wharf at Cincinnati observed a dog swimming around in a circle in the river. The observer went to rescue the dog, and discovered near him the body of a man who, as the coroner's inquest proved, had committed suicide. He had been the dog's owner, and the faithful animal had clung to him even in death.

SATURDAY, October 25th, was the ninety-eighth anniversary of the memorable time, in 1775, when over three hundred merchants of Philadelphia signed the famous "Non-Importation Resolutions." This action on the part of our ancestors was one of the bold, but necessary movements that led to the independence of the colonies. Copies of these resolutions are familiar to Philadelphians; the original is at the rooms of the Historical Society.

THERE comes in the East India papers a curious story of a youth who was captured in Oude while living with and feeling very much at home with a pack of wolves. His habits are described as peculiar to the wolf life he is believed to have led ever since his infancy. He walks or runs with difficulty, but gets over the ground quite rapidly when he uses both hands and feet. He is quite savage when disturbed, having killed one who troubled him since his capture. He eats raw meat ravenously, takes fowls thrown to him alive, bites off their heads, and devours them almost before they are dead. It has been hoped that some one in that section of the country might claim him, so that something more might be learned of him, but at latest dates his parentage was unknown.

FOREIGN ITEMS.

DURING the present century there has been expended in England and Wales for dwelling houses over $5,000,000,000.

SWITZERLAND has 7,000 primary schools, 6,600 teachers and 400,000 scholars. The education of children is compulsory in all the cantons except Geneva and Uri.

SOME of the Paris journals state that Queen Isabella, at Trouville, in attempting to afford help to her son, Prince Alphonzo, when in danger of drowning, was herself carried away, and would have been lost if one of the bathing men had not saved her.

AN election for member of Parliament in Scotland does not appear to be a very costly affair, as far as the candidates are concerned. According to a statement of the legal expenses of a recent election in the county of Renfrew, made by the sheriff of the county as returning officer, the total amount, to be equally divided between the two rival candidates, was only $1,205.

A NEW law has been drawn up in Russia to legalize the family relations of those who do not accept the established form of faith. Hitherto no marriage not celebrated in the orthodox church has been valid; the law has not recognized the religious practices of the sects, so that marriages have no legal validity, and children have no right to inherit the property of their parents or relations. Under the new law, though the sects are ignored, their marriages are to be legalized by registration at the police offices.

THE German navy consists at present of 42 steamships armed with guns of the heaviest calibre, viz.: Three iron-clad frigates, one iron-clad corvette, two other iron-clads, one screw line-of-battle ship, five corvettes of the first-class, six corvettes of the second-class, four aviso steamers, one yacht, two gunboats of the Albatross class, seven gunboats of the first and ten of the second class; five iron-clad frigates and two corvettes of the second class are building, and are now nearly finished. These together will be armed with forty-six rifled guns. Including the reserve and the Seewehr, the Imperial navy has 1,159 officers, midshipmen, warrant officers and officials.

A MASS meeting of the iron-workers of South Staffordshire, England, was recently held, at which the masters' proposition of a reduction of about twelve per cent. in the rate of wages was discussed. The workmen resolved not to accept the high price of coal as a reason for reduction, because the employers had been promoters in the increase in the price of coal, and because the acceptance of the principle involved would necessitate a further reduction of wages in the event of another advance in the price of coal. In the North of England the workmen will abide by the decision of a board of arbitration, and the workmen of South Staffordshire have agreed to await that decision before taking final action on the masters' proposition.

HOW CAPTAIN HALL DIED.

The Poisoning Story a "Mischievous Supposition"—His Death Entirely Natural—Important Statements by Secretary Robeson.

A dispatch to the New York *Tribune* says: "Secretary Robeson made some important statements, in conversation to-day, regarding the results of the examinations of the two parties, known as the Tyson party and the Buddington party, of the Polaris Arctic expedition. He said that there was no longer any doubt that Captain Hall died a natural death; that there were no facts that pointed in the slightest degree toward any other story, and that the whole report had its origin in a mischievous supposition by a sensational newspaper. He said none of the gentlemen associated with him on the examination believed the contrary, and none of the witnesses credit such a story, and all of them who have been in a condition to know pronounce the story impossible under the circumstances.

"'The facts,' said Secretary Robeson, 'were as follows: Captain Hall was a man of full habit, a large eater, and subject to fits of heavy headache. His life on the Polaris had not been an active one, and he did not have as much exercise as needed. To relieve his severe headache, it was his habit to eat large quantities of raw meat, beef being his preference. This produced the irritation and stimulation which relieved the vertigo and headache. The Polaris being blocked in and unable to proceed further, her commander decided on a hazardous and difficult sledge journey. It took him seven days of the severest trial and suffering to reach the highest point attained by man, and he was much of the time without the necessaries of life. He slept in the snow and ate the most unsuitable of food. He was often required to relieve the dogs by drawing the sledge himself. He returned in five days, having become familiar with the country. During these twelve days or two weeks he was exercising violently in an atmosphere twenty-five to thirty degrees below zero and sleeping constantly in his skin clothes. The ship was covered with canvass, and was surrounded with snow and ice to the depth of many feet, a narrow pathway cut through the hard snow being the only means of reaching the deck. When Captain Hall returned he entered his cabin, eight by fifteen feet, which was wholly without ventilation, and occupied by six other persons. This was heated by a stove-pipe from the cabin below. The air was fetid and unhealthy, and the Captain returned to this room in an exhausted condition, complaining that he was not well. He was fond of coffee, and drank heartily of it. Lying down, still in his smothering suit of fur, vomiting and a combination of vertigo, congestion, and apoplexy followed, and terminated fatally.

"'As for the practical results of the investigation of this party for the past ten days,' continued the Secretary, 'nothing new has been discovered. Of course they have more of scientific importance than the Tyson party, for they retained their instruments. Their experiences may also be made useful in the future. What I most desire is to see Mr. Bryan, who was one of the Scientific Corps, and who is spoken of by both Tyson and Buddington parties as the most popular and one of the most trustworthy of the officers and crew. I have received a dispatch from him and his two companions that they have arrived at Dundee, Scotland. I have given them a leave of absence for a week, when they will sail from Liverpool. They will be examined, and then I shall make up my report, and it will be given to the public.'"

STATE POLITICS.

Speculations Regarding the Officers of the Next Legislature.

The Harrisburg correspondent of the Philadelphia *Press* thus speculates about the officers of the coming Legislature:

"Already we have a lively contest for the officers of the next House of Representatives. The struggle will be for the Speaker's chair and Clerk's desk. It is asserted now that the struggle will be between Henry of Cambria, McCormick of Allegheny, Meyer of Bradford, Mylin of Lancaster, and Mitchell of Tioga. These are all good men, but the question arises, will the East submit, in view of the fact that the West and Northwest now have the Auditor General, State Treasurer, Attorney General, Secretary of the Commonwealth, Deputy Secretary and Commissioner of Statistics—all very important offices—while the East only enjoys the Superintendent of Common Schools, Adjutant General and Surveyor General. It is not fair to enumerate the Governor in this list, as no section can claim that office when its incumbent owes its occupancy to personal worth and services. Will the East, then, be willing to surrender the Speaker of the House to the West, particularly as it looks very much at this present writing as if General Selfridge will be superceded as Clerk of the House by Dr. Shurlock, of Beaver county, who represented that county in the House in 1872? Last session he lacked but a few votes of making the nomination for Clerk of the House, and it is now conceded he will be successful the coming session. He is a very clever and competent man, and belongs to a big ring in the West. Of course Mr. Errett will be re-elected Clerk of the Senate, and Senator Strang will be the Speaker of that body. All this combines to make the case of the East for the Speakership of the House more strong, if the Republicans in that portion of the State are firm and united, and therefore I think the friends of Mylin, of Lancaster county, have some show of success.

CURE OF LEPROSY.

Important Experiments Being Made.

The *Pall Mall Gazette* says: "Important experiments are, it seems, being made as to the cure of leprosy, and the *Friend of India* reports that while Dr. Kenneth Stuart, in Calcutta, and Dr. Balfour, in Madras, in applying cashew-nut oil to both the forms of leprosy, are meeting with only partial success, the Madras surgeon in medical charge of the penal settlement at Port Blair believes that he has made a more valuable discovery in the same direction. He is of opinion that leprosy can be cured by the oil of the gurjun tree. Every leper in the settlement is, it is stated, being cured fast of the loathsome disease. In no case has there been the slightest failure, and the disease has been arrested at every stage. 'No doubt,' says a correspondent, 'the matter will be fully reported when the experiments have been completed. In the meantime the doctor has very wisely resolved not to make any stir about the matter until his experiments are so completed as to leave no doubt respecting the nature of the cure as well as its permanency. This oil seems to be beneficial to all descriptions of sores and ulcers, and it has other properties which will be fully disclosed hereafter.' The oil of the gurjun balsam or wood oil has long been used all over India by the natives for skin diseases and sores. In the event of its turning out that leprosy is curable, the discovery will not only be valuable as regards those afflicted with that disease, but will stimulate the medical profession to further exertions to discover the antidote to other diseases of a like nature hitherto considered incurable."

Pittsburgh Bank for Savings,

No 61 FOURTH AVENUE, PITTSBURGH.
CHARTERED IN 1862.

ASSETS January 1, 1873, - $778,251 56.

OPEN DAILY from 9 to 4 o'clock, and SATURDAY EVENING, from May 1st to November 1st from 7 to 9 o'clock, and from November 1st to May 1st, 6 to 8 o'clock. Interest paid at the rate of 6 per cent., computed from the 1st and 15th of each month, and if not withdrawn, compounds semi-annually, in January and July. Books of By-Laws, &c., furnished at the office.

Board of Managers—George A. Berry, President; John Scott, James Park, Jr., Vice Presidents; D. E. McKinley, Secretary and Treasurer.

A. Bradley, J. L. Graham, A. S. Bell, Wm. K. Nimick, John S. Dilworth, F. Rahm, G. Follansbee, Joshua Rhodes, S. H. Hartman, Robert C. Schmertz, Christopher Zug.

Solicitor—John H. Bailey.

DRUGS AND CHEMICALS.

The best assortment in the city at JOSEPH BROWNE'S. Remember the place, corner of Penn and St. Clair streets, have, without exageration, the finest, best and most complete assortment of Toilet Articles in the city, such as Toilet sets, Perfume cases, Imported Cologne, Lubin's Perfumes, Rimmell's Perfumes and Cau de Ays of every description. Also, Puff Boxes of every style. Persons wishing to purchase Holiday Presents should call and examine the large and splendid assortment before purchasing elsewhere. Remember the place, where you can purchase any thing in this line, cheaper than elsewhere in this city is at

BROWNE'S DRUG STORE,

Cor. Penn avenue and Sixth (old St. Clair) street.

"MARJORIE DAW."

BY EUNICE E. COMSTOCK.

Once on a time, a cunning artist drew
 A picture, so divinely fair
That each beholder's wonder grew and grew,
 Beholding loveliness so rare.

And we waited, with expectant hush
 To see the crowning light laid on,
One sweep the painter gave with lifted brush.
 And all the marvel seemed undone.

But *only* seemed, for though our summers must
 That fairy-freighted hammock swing
To measured cadence of the sea, that just
 One rythmic name is murmuring.

And from a gable-window looking down,
 Forever wistful eyes shall view,
The dainty foot, and shadowy eyes, and gown
 Of gauze, diaphanous and blue.

And Summer moons must ever softly touch
 Each golden coil upon that head;
For we, her lovers, will not yield so much
 As one pale, silken, shining thread.

For, having once bestowed this wondrous gift,
 The hand that gave may not withdraw;
So long as light shall change and shadows shift
 So long shall live rare Marjorie Daw.

—ATLANTIC MONTHLY *for November.*

MR. H. COXWELL determined to test the theory of Professor Wise, of Graphic balloon fame, that there is a continual current of air flowing from west to east, at the altitude of 10,000 feet, ascended on the 22d ult. to the required height in the well-known Nassau balloon from Hornsey, England, descending near Box Hill, Surrey. The theory, however, does not hold true, as the current that day was from north to south.

RUPTURE.

There are hundreds of people ruptured who don't know what ails them; there are others who don't know what to do for it, nor where to seek for relief or a cure; others again who have had rupture for years, under the false notion that there can be no danger in the future, as there has been none in the past. This is a fatal delusion, and there is no knowing what day the rupture may become strangulated, and call for a painful and dangerous surgical operation. To avoid so fearful a result, make application to some competent person to have a truss applied. Will a truss cure me, you may ask. Very often it will, but it will always retain the parts so as to make you secure and safe from danger, and at a cost so trifling as to be hardly worth mentioning when compared with the enormous risk you run in letting it alone. Dr. Keyser, at his office, 167 Liberty street, is provided with every appliance suitable to the retention and cure of this terrible evil. He has trusses at a price as low as can be obtained anywhere in the country, and in every variety and quality—of such vast variety, that the most difficult and long standing cases, of years duration, are made manageable and brought within the province of cure. Let no one deceive themselves into the belief that rupture is never curable; but worst than all, let none consent to "let alone" cure.

Dr. Keyser's office, 167 Liberty street, Pittsburgh, Pa.

New Cone Furnaces
WELLMAN REFLECTOR
Grates and Stoves,
MARBELIZED
SLATE MANTELS.
ALSO
Common Fronts and Grates,
HOT AIR REGISTERS AND VENTILATORS, &c.

The Superiority of the Cone Furnace consists in its simplicity of construction, large amount of radiating surface, ease of management and economy in fuel, saving at least one-third of fuel over the ordinary Furnace.

THE WELLMAN REFLECTOR GRATE Has an acknowledged reputation. For Cleanliness, Economy of Fuel and Heating Capacity it stands without a rival. An examination of our stock is respectfully solicited.

Speedily Cured.—All Forms

of Venereal, Private and Nervous disease at the old established Girard Medical Institute, No. 172 Second avenue, between Smithfield and Grant streets, Pittsburgh, Pa.

NO CHARGE UNTIL CURED.

Syphilis, Stricture, Orchitis, Hernia and all Urinary diseases are cured in the shortest possible time that will insure permanent relief, Spermatorrhea, or Semina weakness and Impotency, as the result of self-abuse or excess in maturer years, and which produce some of the following effects, as emissions, blotches, debility, dizziness, nervousness, dimness of sight, cough, indigestion, constipation, despondency, confusion of ideas, aversion to society, loss of memory, and sexual power, and which unfits the victim for business or marriage, and ultimately causing insanity and consumption, are thoroughly and permanently cured. Medicines supplied at the institute. A medical pamphlet relating to private diseases sent in sealed envelope for two stamps. All communications confidential.

This Institute was established for the express purpose of supplying the afflicted with scientific and reliable treatment, and is not to be classed with the numerous quacks and impostors that infest all large cities. The proprietors have made the treatment of Private and special diseases the study of their lives, and can refer to thousands all over the country that have been benefitted and cured by their treatment. No matter how difficult or long standing your case may be, if curable, after a personal examination they will frankly tell you; remember, they have cured many cases given up by other physicians.

Patients treated by mail or express, but where possible, it is best to visit the city for personal consultation, or address:

ENOCH MORGAN'S SONS'

SAPOLIO
is a substitute for Soap for all Household purposes, except washing clothes.

SAPOLIO
for Cleaning your House will save the labor of one cleaner. Give it a trial.

SAPOLIO
for Windows is better than Whiting or Water. No removing curtains and carpets.

SAPOLIO
cleans Paint and Wood, in fact the entire house, better than Soap. No slopping. Saves labor. You can't afford to be without it.

SAPOLIO
for Scouring Knives is better and cleaner than Bath Brick. Will not scratch.

SAPOLIO
is better than Soap and Sand for polishing Tinware. Brightens without scratching.

SAPOLIO
Polishes Brass and Copper utensils better than Acid or Oil and Rotten Stone.

SAPOLIO
for Washing Dishes and Glassware is invaluable. Cheaper than Soap.

SAPOLIO
removes Stains from Marble Mantles, Tables and Statuary, from Hard-finished Walls, and from China and Porcelain.

SAPOLIO
removes Stains and Grease from Carpets and other woven fabrics.

There is no one article known that will do so many kinds of work and do it as well as Sapolio. Try it.

HAND SAPOLIO
a new and wonderful effective Toilet Soap, having no equal in this country or abroad.

HAND SAPOLIO
as an article for the Bath, "reaches the foundation" of all dirt, opens the pores and gives a healthy action and brilliant tint to the skin.

HAND SAPOLIO
Cleanses and Beautifies the Skin, instantly removing any stain or blemish from both hands and face.

HAND SAPOLIO
is without a rival in the world for curing or preventing roughness and chapping of either hands or face.

HAND SAPOLIO
removes Tar, Pitch, Iron or Ink Stains and Grease; for workers in Machine Shops, Mines, &c., is invaluable. For making the Skin White and soft, and giving to it "bloom of beauty," it is unsurpassed by any Cosmetic known.

HAND SAPOLIO
costs 10 to 15 cents per cake, and everybody should have it. You will like it.

DON'T FAIL TO TRY THESE GOODS.

Buy it of your merchant if he has it, or will procure it for you. If not, then write for our Pamphlet, "All about Sapolio," and it will be mailed free.

DR. WHITTIER,
No. 296 PENN STREET, Pittsburgh, Pa.,

Continues to treat with his usual great success, all Private Diseases. Perfect cures guaranteed.

Spermatorrhœa or Seminal Weakness, resulting from self-abuse or sexual excess, producing nervous debility, night emissions, despondency, dizziness, dimness of sight, pimples on the face, weakness of mind and body, and finally impotency, loss of sexual power, sterility, &c., unfitting the victim for marriage or business and rendering life miserable, are permanently cured in shortest possible time. Gonorrhœa, Gleet, Stricture, all urinary diseases and Syphilis (all forms) consisting of skin eruptions, ulcers, &c., are perfectly cured, and the blood-poison thoroughly eradicated from the system.

DR. WHITTIER is a regular graduate of medicine, as his diploma at office shows; his life-long special experience in all private diseases, with purest medicines prepared by himself, enables him to cure difficult cases after others fail—it is self-evident that a physician treating thousands of cases every year acquires great skill. Consultation and correspondence private. Pamphlet sent sealed for stamp. Medicines sent everywhere.

Office hours, 9 A. M. to 8 P. M. Sundays 12 to 1 P. M.

TRUE MARRIAGE GUIDE,

260 pages, fine illustrations. A book for private, careful reading, by both sexes, married or single, explaining wonders and mysteries of sexual system, reproduction, marriage impediments, &c., causes, consequence and cure. Price 50 cents, at office, or by mail, sent securely sealed.

ORDINANCES.

[No. 258.]

AN ORDINANCE—Authorizing the grading, paving and curbing of Jefferson street, from Ridge street to Alpine street.

WHEREAS, It appears that a majority in interest has petitioned for the Grading, Paving and Curbing of Jefferson street, from Ridge street to Alpine street, therefore,

SECTION 1. Be it ordained and enacted by the city of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by authority of the same, that the City Engineer be and he is hereby authorized and directed to advertise for proposals for the grading, paving and curbing of Jefferson street, from Ridge street to Alpine street, and to let the same in the manner directed by an act concerning Streets, approved January 6, 1864, and the several supplements thereto, and ordinances of Councils relative to the same.

SEC. 2. That any ordinance, or part of ordinance, conflicting with the passage of this ordinance at the present time, be and the same is hereby repealed, so far as the same affects this Ordinance.

Ordained and enacted into a law, in Councils, this 13th day of October, A. D. 1873.

A. H. GROSS,
President of Select Council.
Attest: E. S. MORROW,
Clerk of Common Council.
W. B. NEGLEY,
President of Common Council.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY EVENING, October 25, 1873.

The New York Clearing House Association has: "*Resolved*, That on and after November 1st, next, the equalization of legal tenders by the banks of the Association be discontinued." This is a hopeful sign of returning confidence and stability. This action means, in brief, the general resumption of currency payments, and will at once do away with the difference which has been existing between greenbacks and Clearing House checks. It will also relieve the banks in the interior keeping balances in New York banks, enabling them to make all their balances available to them. The letter of President Grant to Mr. Williams, so much talked of, has all ended "in smoke." The only portion of the letter made public is as follows:

"But cannot the Bank Presidents be brought together and resolve to aid each other and the business interests generally? The Government then will do all in its power. To morrow I will consider the question with the view to do all in my power for the relief now so much needed." This is all very nice, but there is nothing in it; and so unimportant did the bank Presidents consider it that they passed the following very polite but unmeaning resolution: "*Resolved*, That the message of the President of the United States to the banks of New York be respectfully and gratefully acknowledged, and we cordially reciprocate his kind wishes and will act in the spirit which he recommends."

Money in our local market still commands too high a rate, but we think the indications are that ease will soon be restored. A number of individuals have money to invest in collateral notes with Governments as security, but the securities of that character are not plenty. As a rule, those holding Government bonds are not compelled to borrow. These parties being unable to put out money on Governments, will look around for other investments, and thus make money more plenty. While it is true that Governments are the safest form of investment, yet there are good firms whose paper is for sale who offer as good security as any investor need have for his money. The fact is, money will be easier just as soon as private investors unlock their hoards, and we say to our readers, "Bring out your money and invest it at once. *Put your money in circulation.*"

The New York stock market has been weak all day, and prices closed at a decline of 2 to 5 per cent. from opening prices in the morning. This is as we have indicated for several days past, but now is the time to buy for cash, lay by the certificates and wait for the advance which is sure to come. There are a number of good stocks in the list on which the investor can make from 10 to 20 per cent. in less than three months. The wise investor can make money in this way safely and rapidly.

Gold opened at 108½ and closed at 108¾, a slight advance.

Luther S. Kauffman, Banker, No. 96 Fourth Avenue, furnishes the following quotations of bonds and stocks from the latest advices by telegraph:

NEW YORK, October 25, 1873.

No specially new features were brought out this afternoon, but a general feeling of distrust took possession of the markets, and stocks were heavily pressed for sale at prices from 2 to 4½ per cent. below the quotations current in the forenoon. The decline, it is said, was chiefly because several large time loans of money, on which blocks of Vanderbilt stocks were carried, matured, and the lenders refused to renew them. Accordingly, the stocks had to be sold. The standing cause for the decline was also freely circulated, that Commodore Vanderbilt was sick. This rumor was quickly denied, only to give place to another, to the effect that there was a hitch in the negotiations between the Trust Company and Lake Shore, and that the Commodore could not put up the securities he agreed to. When this report had gone the rounds it gave place to a more mischievous rumor, that some large stock firms were in trouble. But the day closed without anybody being reported to the Stock Exchange, or any names being mentioned. The decline in Vanderbilt stocks brought out other long stocks, and the tears also sold freely, which assisted the downward movement. Many operators are on the bear side, for the reason that it is now easier to sell than to buy stocks, and this carries prices down on every unfavorable rumor.

Money ranged from 7 to 1-32, and closed at the lower rate. Foreign exchange was quiet and steady at 106½ for prime bankers' sixty days' sterling, and 108 for sight. Gold was quiet and firm at 108⅝@108¾. The rates paid for carrying were 2, 3, 4, 5 and 6, the final rate being 6 per cent. Clearings, $24,000,000. The Treasury operations for the week, at the New York office, included the disbursement of $700,000 gold for interest and in redemption of 5-20 bonds, and the receipt of $1,109,990 for customs. The specie exports for the week were nearly $460,000, principally silver bars, and the imports over $1,500,000; general merchandise imports, including dry goods, $5,820,093; produce exports, $7,430,526.

Governments were dull and strong. State bonds were dull. Railway and miscellaneous speculation was firm at the opening, and prices made a fractional advance over the improvement of yesterday afternoon. The market soon became weak, and a general decline followed, ranging from ½ to 3½ per cent. There was a slight recovery shortly after 2%, and at the second call, but this was also soon lost, and great depression ruled from that time out. Western Union advanced from 56½ to 57¼, and later declined 6 per cent. New York Central fell off from 89⅞ to 85¾, and left off at 86. Lake Shore receded from 65½ to 60¾, and closed at 61½. Rock Island declined from 91⅞ to 87¾. Delaware, Lackawanna & Western from 87⅞ to 85, and New Jersey Central from 89⅞ to 87. Wabash rose from 40½ to 41½, and sold late in the day at 37¼.

Governments.—U. S. coupons of 1881, 113½; 5-20's of '62, 107¼; do '64, 108; do '65, 109; do new, 110⅝; do '67, 114; new do, 113; new 5s, 109¼; 10-40s, 106⅛; currency 6s, 109⅜.

State Bonds.—Missouri, 85¼; Tennessee old, 68; do new, 68; Virginia, 30; do new, 35; North Carolina old, 18; do new, 12; Bankers' bills 6½.

COMMERCIAL.

Condition of the Markets at Home and Abroad.

PITTSBURGH GENERAL MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, October 25, 1873.

General business continues dull, although it is no worse this week than last, and we are in hopes that there will be an improvement next week. The demand for all of the leading staples continues meagre, being restricted entirely to supplying immediate wants, while in regard to values there have been no important changes recently; trade could be considerably increased if our merchants were willing to sell freely on time, but this they refuse to do, and the result, as might be expected, is that business is very much curtailed, and the probability is that this policy will be generally adhered to until money matters become easier.

APPLES—Sales in a jobbing way at $1@2 per brl. for common to medium, and $2.50@3 for prime to choice.

BEANS—Sales, $2.50@2.75 per bushel.

BUCKWHEAT FLOUR—Quoted at 4½@5c.

BUTTER—There is a good demand for the finer grades, and prices are fully sustained. Prime to choice roll may be quoted at 27@28, and fancy at 30. Low grade butter is dull.

BEESWAX—Quoted at 30@33c ℔ ℔.

CRANBERRIES—Good to choice Jersey's quoted at $10@13 per brl, according to quality, and Carey's at $15@16.

CHEESE—We can report a steady demand for Prime Ohio Factory at 14@14½ to the trade, and 15@15½ in a jobbing way. Nutmeg still quoted at 17 and Young America at 18. Prime to choice Ohio Sweitzer, 17@18.

CHESTNUTS—$4.50@5 per bushel.

EGGS—In light supply, and the market reported firm at the recent advance; may be quoted at 25c—we hear of some few sales at 27.

FLOUR—There is a very fair local trade but no change in rates; spring wheat flours $7.25@7.50 winter wheat flours, $7.75@8. Rye Flour, $5.25@5.50.

GRAIN—There is but little inquiry for Wheat, and the market is quiet, if anything the general feeling is weaker, but prices remain unchanged; $1.47@1.50 for red, and $1.50@1.60 for white. Oats in steady demand and notwithstanding the arrivals seem to be increasing slightly, there is no accumulation, and prices are fully sustained; we continue to quote at 46@48c, according to quality. Shelled Corn is reported quiet and unchanged, 60@61 on track, and 63@65 free in elevator. There does not seem to be much inquiry for Rye and prices are quiet and nominal at 85@90. Barley is quotable at $1.25@1.35, according to quality; dealers report that there would be no difficulty in selling on time, but that cash buyers are scarce.

GROCERIES—There are no new features in the grocery trade to note; trade continues slow, although it is not any worse than it has been, and is all that can reasonably be expected under existing circumstances and surroundings. The demand is mainly to supply immediate wants while as regards prices there have been no changes recently excepting a decline in Sugars; we reduced our quotations a quarter yesterday.

COFFEE—Choice Rio, 26½@27; good to prime 25½@26; fair, 23@24c. Roasted one lb. packages 33c; loose, 29½.

SUGARS—Patent Cut Loaf, 12½c; Crushed, Powdered and Granulated, 11½; Standard A, 10¾; B, 10½; Ex. C, 10½; Franklin Ex. C, 10½; Other Yellow Sugars, 8½@10.

MOLASSES—Choice New Orleans, 75@80c; Prime 73 to 75.

HOMINY—Sales at $5 ℔ brl.

HONEY—Is selling at 30@35c per ℔.

HAY—There is a moderate demand for baled, and prices are pretty well sustained, ranging from $20@25 per ton, according to quality.

PEAS—$1.25@2 ℔ bushel.

POTATOES—Are quotable by the car load in bulk, at 65 to 85c per bushel, the outside figure for choice Peach Blows. Sweets, $3.50@4.50 per brl the last named figure for prime Jersey's.

POULTRY—Live chickens quoted by the coop at 40@60 c per pair, according to size.

PROVISIONS—Extra Sugar Cured Hams, ℔ lb. 14, Ex. Sugar Cured Shoulders, 10½; Sugar Cured Breakfast Bacon, 12½c. Extra Sugar Cured Dried Beef, 16. Beef tongues, $7.50 ℔ dozen. Bacon Shoulders, per lb. 9c. Bacon Rib Sides, 9½c. Bacon Short Rib Sides 9½c. Bacon Clear Rib Sides, 10c. Mess Pork, $16.00 per barrel. Refined Lard for summer use, in trcs, 9¾. Do. half bbls. 10c. Do. in kegs 10½c. Do. in 3 lb. caddies, 12½c. Do in 5 lb. 12c do. in 3 lb. pails 12½c ℔ pound. Do. in 6 lb. pails, 12½. Do in 5 lb. pails, 13½. Ham Sausage, 10.

ONIONS—Sales $4@4.50 ℔ br

RAGS—Quoted at 3½@3c.

SALT—Is quoted at $1.60 ℔ brl. by the car load, and $1.85 in a jobbing way.

SEEDS—Flax Seed continues scarce and the mills are taking all that offers at $2 per bushel

WHISKY—Highwines, 94@95c.

PITTSBURGH LIVE STOCK MARKET.

CENTRAL STOCK YARDS, EAST LIBERTY, SATURDAY, October 25, 1873.

RECEIPTS.

Following is the aggregate of the receipts of the different kinds of stock for the week.

	This week.	Last week.
Cattle	411 cars	474 cars
Hogs	249 "	312 "
Sheep	80 "	60 "
Horses	6 "	11 "
Mules	6 "	3 "
Total	743 "	863 "

CATTLE.

Trade was very dull during the greater part of the week, especially for the common and medium grades for which the demand was unusually light; prime shipping steers, of which the supply was exceedingly small, ruled firmer than the week preceding, as the supply was scarcely equal to the demand, although prices were no better. Cattle of all kinds are down lower now, than they have been, if we mistake not, for a year or more, and the feeling begins to prevail to some extent that the bottom has been reached; however, it depends on money matters. If money should commence to work easier, and internal exchanges get back to where they were prior to the panic, the cattle trade will no doubt improve, but as long as finances continue in their present disturbed and unsettled condition, no material or healthy improvement in the stock trade can reasonably be expected.

The feeling yesterday and to-day, however under the influence of the more favorable advices from New York, together with the fact that the yards were pretty well cleared up, was rather better, and it is hoped that business next week will be more satisfactory than it has been for several weeks past. It is thought that the "run," both through cattle and those intended for sale here, next week, will be light, as the stringency in money matters will tend to cause western shippers to curtail their purchases, and, if so, the market will doubtless do better, as the supply in the eastern markets, like our own, has been considerably reduced, and there will be at least an average demand.

In regard to prices there has been no quotable change in the value of prime stock, but the commoner grades, notwithstanding the supply was scarcely an average, were very dull and lower. Prime to extra shipping steers, fat and smooth, may be fairly quoted at 5½@5¾; medium to good, 4¾@5¼; fair 4½@4¾; stockers 3½@4 cts. Hedges, Huff & Co. sold two cars of prime Kentucky steers to McFillan & Co. at 6¼ delivered in Philadelphia, equal to about 5¾ delivered here.

HOGS.

The arrivals, as will be seen, were 63 cars less than those of the preceding week, but the supply was nevertheless fully up to the demand; trade opened slow and dragged most of the week, especially for common stock, of which there was an oversupply. The average quality was common, the bulk of the offerings consisting of the common and medium grades, and while prices for all kinds are a shade lower, the decline in the latter kind was most marked. Prime heavy hogs, such as are usually bought for shipment to Philadelphia, may be quoted at 4¾, and fair to prime Yorkers at 4½@4¾. Extra light Yorkers, even and smooth, averaging say from 100 to 150 ℔s, sold up to 4.60 and even 4.75, as the supply of this particular character was very meagre, in consequence of the demand.

SHEEP.

The "run," as will be seen, was a large one, 20 cars in excess of last week, and as a rule, common in quality. The market was moderately active on Monday and part of Tuesday, but as soon as it was discovered that the run was likely to be above an average one, the market broke down, and dragged from then until the close. Prices for best grades may be quoted down fully 25c ℔ cwt, while for the commoner grades some dealers thought the decline still greater. Quotations may be fairly given as follows: Prime fine wool, 95@100, 4¼@4½c: prime 85@90 ℔s, 4¼@4½: 75@80, 3¼@4.

Wool Markets.

NEW YORK, October 24.—The market continues quiet, with buyers and sellers apart. The bulk of the stock is held above the prices paid in the limited business done: X and XX quoted at 56 O63, and do. Michigan at 48@50. Sales 11,000 ℔s California spring slightly burry at 27½c, 60,000 do. X and XX Ohio fleeces on private terms, 20 bales low secured at 50, 10 bales Cape at 45, 147 do. spring California part at 34, 24,000 ℔ Texas at 33@35, 10 bags super pulled at 46, 8,000 do. 50 bags combing do, 40 bales cape on private terms.

BOSTON, October 23.—With moderate stocks holders are not disposed to urge sales at any concessions, feeling confident that a favorable change must take place. The sales include Ohio and Pennsylvania fleeces X, XX and above at 51@55, Michigan and Wisconsin at 48@50, combing and delaine at 53@65 for washed, and 42@45 for unwashed, unwashed, mostly Nevada, at 3@38, low western fleeces at 44, tub at 52@58, super and X pulled at 42@55. California fall on private terms, do spring at 26@35, and scoured at 49@95c. In foreign wool there is very little doing; sales of Cape at 32@37. Mestiza pulled at 67½@70. Cape pulled at 50, South American and Mediterranean carpet at 27@40c, and Mestiza pulled on private terms.

BOSTON, October 25.—Wool inactive and transactions small. Good lines Wisconsin and Michigan fleeces 40½c; extra and double extra Ohio 48@50c; Ohio and Pennsylvania fleeces 40@52½c; washed combing 45c; washed delaine and combing 55@60c; unwashed do 35@40c; unwashed and unmerchantable 35@45c; scoured 80@90c; tub washed 42@45c.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, October 25, 1873.

The Crude market has been quiet all week but closes rather firmer, and prices are a shade higher; quoted to day at $1@1.10 ℔ brl at Parker equal to 3½@3⅞ ℔ gallon delivered here. Barge oil is quotable at 3½; refiners generally prefer to buy it at Parker, and have it delivered by rail, for the reason that they can handle it much easier, many of them having their own sidings, and are thus enabled to run the cars into or alongside of their works. The arrivals in bulk boats on the present water foot up, it is said, about 20,000 brls, and some 10,000 brls additional are expected within the next 24 hours; it is but proper to state that a large proportion of it is owned by Parkersburg refiners, and will be towed to that place.

The refined market was also quiet during the greater part of the week, but closes firmer, and spot and near deliveries are reported higher, the former quoted at 16½@16¾, Philadelphia delivery, and November at 15¾@16. It is fair to infer, in view of the advance in prices, that the demand for export is more urgent, particularly as spot oil is worth so much more than futures. There is but little oil being sold on cars, and prices may be quoted nominally at 13 to 13½.

The barrel market seems to have settled down to about $2.25@2.30 for the present, the outside figure for city make, delivered. Now that navigation has been resumed largely increased arrivals of country barrels are expected.

Receipts crude	this week		52,463 bbl

New York Iron Market—Weekly Review.

NEW YORK, October 24.—American Pig.—The general market for American Iron continues very dull and prices depressed. Two or three large furnaces have blown out, and there is considerable talk among many others of doing likewise, owing to the slow demand for their productions and the high ruling prices of ores. Stocks of all descriptions are steadily accumulating. Prime brands of No 1 iron are obtainable at $40, while many others not well known can be obtained for cash considerably lower. We note sales of 300 tons No. 2 extra at $32, cash, which is a fair representation of the market valuation. Gray Forge is held at about $28@29, cash.

Scotch Pig.—Holders of Scotch Iron are asking about the same figures as given last week, though it is probable that a cash offer at a reduction would be quickly taken. Notwithstanding the depression here, the Glasgow market still holds its own, and is without any apparent indications of a lower range of prices, unless brought about through a panic there. The stock abroad on October 3rd was only 89,000 tons of all brands, as against 157,000 tons at same date last year. The demand here continues light, and small parcels are selling from yard at $42@43, cash. During the week about 700 or 800 tons Glengarnock have sold from first hands on private terms. We quote Gartsherrie, which is in very small stock, at $48; Coltness, $45; Summerlee, $42; Glengarnock, $41, and Eglinton, $40.

Bar.—The demand for manufactured iron continues very light, and values weak and depressed.

Old Rails.—There is very little doing in Old Rails, and prices are nominal. Some 300 or 400 tons D. A.'s are reported to have changed hands at Philadelphia at $43. We quote here at about $45@46, though it is doubtful if any could be placed at these figures.

New Rails.—Trade in new rails also extremely dull. A lot of 2,600 tons English, part at New Orleans, are said to have been sold on private terms. We quote at about $82, gold, and American at about $70 currency.—Iron Age.

Receipts Pig Metal, Ore and Blooms.

CLEVELAND, October 25.—Grain: nothing done; prices very weak and nominally unchanged. Petroleum firm and unchanged.

Dry Goods.

NEW YORK, October 25.—There was rather more activity in the jobbing trade to-day, but manufacturers' agents continue quiet. Sprague's prints were closed out at 9½c by a large jobbing house, and Richmond prints are reduced to 10c. The market for cotton goods shows less firmness, and some price reductions have been made. Pepperill and Laconia brown are down to 1c per yard.

Live Stock.

CHICAGO, October 25.—Cattle: receipts 713 head, mostly Texans and poor natives, for which the market was dull at $2.25@3.55; good grades scarce; sales good to extra at $4.50@5; shipments 945. Hogs: receipts 7,739 head; market active and firm for packing and shipping grades; heavy weights $3.90@4.15; light $4.20 @4.40; shipments 9,615.

RIVER NEWS.

State of the Rivers, Movements of Steamboats, &c.

The river at this point was falling slowly last evening, with 9½ feet in channel. Weather cloudy and warm; commenced to rain about five P. M., and the indications are favorable for its continuance. There is no improvement in business. Freights for all points continue scarce.

There have been no arrivals from below since the date of our last report. The Carrie Brooks, from Zanesville, was due last night, and will doubtless be found in port this morning.

The Juniata departed for Cincinnati with a good freight list, and quite a number of passengers.

The Mary Davage, Captain James W. Batchelor, is announced to take her departure for St. Louis to-morrow.

The Fearless and Ashland left Cincinnati for Pittsburgh on Friday. The Ashland started with, among other items, 700 sacks of corn, and she had considerable pig iron engaged at Hanging Rock and Ironton. W. H. Hall and James Whitten are her pilots

The Lake Erie No. 8 left Cincinnati on Friday, with a tow of empty barges.

—The St. Louis Democrat, of Thursday, says: Mrs. Julia A. Brady, widow of James L. Brady, pilot, instituted a suit yesterday in the Circuit Court against James L. Reed, R. R. Kirkpatrick A. R. Harris, John Denney, T. C. Delaney, James Kelley, Benj. F. McMahon, Jacob Cox, William Gallagher and Edward Suggs, members of the defunct Western Boatmen's Benevolent Association, for dues to which she claims to be entitled. The association was organized many years ago by the river pilots for their own benefit, and was at one time a powerful and useful institution. The plaintiff in this case says that her husband died in New Orleans in October, 1865; that under the laws of the association she was entitled to $25 per month from the relief fund, and receive from time to time $327.50; that the defendants fraudulently conspired to deprive her of her dues, and dissolved the association and appropriated the funds on hand, amounting to $50,000. She says the company received by judgment $21,268.82 from Wm. Hohenshofer and Francis Saler, securities on the official bond of Wm. J. Kribben, Secretary of the Association. She prays judgment for $2052.60, with interest and damages.

—The St. Louis Globe, says: As an evidence that the steamboat business is in a bad condition, the following list of steamboats now lying up at this port will be evidence sufficient: From the ore pile to the St. Louis Elevator will be found the Dexter, Richmond, Phil. Sheridan, Bayard, J. H. Johnson, Rob Roy, Josie, St John's, Andy Johnson, Mohawk, Kellogg, Tom. Jasper, Atlantic, Future City, George C. Wolf, Belle of Shreveport, Ruth, St. Joseph, Alice, City of Alton, Pauline Carroll, Gen. Anderson, Legal Tender, P. W. Strader, Bill Henderson, Joe Fleming, Beaver, Lady Lee, Commonwealth, Colossal, Bismarck, Salvors Nos. 1 and 2, C. B. Church, DeSmet, Continental, Savannah and Fannie Lewis. Here is a list of 38 steamers worth at the lowest calculation $1,000,000, which the low stage of water and the unsettled condition of trade has banked.

—A dispatch from Washington says General Weitzel, in his report concerning the Louisville and Portland canal, advocates a reduction of tolls to 5 cents per ton, and says that amount will be sufficient to cover all expenses of management, repairs, etc. The appropriation of $100,000 will complete the canal.

—T. W. Wells, formerly steward of the St. Francis, died of yellow fever at Memphis. Enquiries are being made for his relatives, as he he had some seven or eight hundred dollars due him from the boat, now in the hands of the U. S. Marshal.

—The St. Louis Times, says: A case involving the right of the government to collect the tonnage tax upon canal boats when entering navigable waters will be carried to the United States Supreme Courts as soon as one that involves $2,000 can be found.

—The state of New York, it is said, will not award the $100,000 prize to any of the competing canal boats that had a trial last week, on the ground that none of them are able to perform what is required of them.

—The question of forming another consolidated line of steamers from St. Louis to New Orleans on a different plan from the two now organized is being agitated, and the prospect is fair for its being done immediately.

—The R. R. Hudson left Cincinnati on Thursday for this city, with considerable furniture and engagements for iron at Ironton and Pomeroy.

—Captain Tom Leathers, who has been confined several weeks at his residence with a severe carbuncle, has been restored to health, and is now in command of the steamer Natchez.

—Wages of Cincinnati and St. Louis and Cincinnati and New Orleans pilots will be the same this year as last, $250.

—Captain Val. B. Horton, Jr., of Pomeroy, O., has gone to California, where he will, with the hope of improving his health, remain all winter.

—The Wild Duck, with two barges of iron ore, left Middleport on Thursday, for this city.

ME NEWS.

outh Side Accidents.

ooting ducks on the Monongahela afternoon Edward Hatfield ac- himself through the left hand. his foot very badly crushed by a stone that he was lifting into n Moesch while practicing on a ntal bar fell to the ground and dislocated one of his arms.

Sunday Afternoon Lectures.

Yesterday afternoon the course of lectures arranged by the Young Men's Christian Association for the Sunday afternoons of the fall and winter months, was inaugurated with a discourse by the Rev. R. W. Pearson, D. D., of the Fourth Avenue Baptist Church, this city, who took for his theme, "Ways and Works; their song and law." There was a good audience in attendance, indicating that the lectures are to "draw" as well as they did last year.

Sudden Death.

Mr. Archibald Logan, an old, well known and highly respected citizen of Allegheny died very suddenly yesterday morning at his residence on Knoll, street. He was in his usual health on Saturday night and attended to some business in the market. He got up on Sunday morning and complained of a severe pain in his breast, and while sitting in a chair he suddenly fell to the floor dead. Deceased was sixty-four years of age. Notice of the funeral will be found in another column.

Reducing Wages.

A meeting of furnace owners was held on Saturday, every furnace in this vicinity being represented, at which a resolution was passed deciding upon a reduction of ten per cent. upon all labor on and after to-day.

NOT SATISFIED.

The fact of this reduction became circulated among the men on Saturday night, and did not meet with universal satisfaction. The men at Moorhead's Blast Furnace, Soho, yesterday morning, expressed their dissatisfaction, and refused to go to work under the new schedule, which action necessitated the "shutting down" of the furnace.

That $75,000.

The argument in the McCully-Clark Bond of Friendship was resumed Saturday afternoon, before Register Gray. Robert Woods, Esq., made the speech for the estate, and ridiculed the idea that Mr. McCully would sign such a paper, to will away such a sum of money to one for whom, according to the testimony, he held no special friendship. The speaker argued further that the evidence showed McCully to have been anxious to collect all his notes from Clark, and if that was the case, it was hardly reasonable to suppose that he would turn around and give him a note for $75,000.

At the close of Mr. Woods' address, further argument was postponed until to-morrow (Tuesday), when Mr. Hampton will close for the estate.

Pardoned Out.

Saturday morning J. K. Turner was released from the Penitentiary on a pardon sent from Washington. Turner is a young lawyer, who while acting as Pension agent at Titusville, forged pension papers and secured the money on them. He was tried about two years ago and sentenced to the Penitentiary for fourteen years. While being brought to the city he jumped from the car window and escaped, but crippled himself so much that he was unable to get entirely away, and was retaptured in a day or two. Some time since an application was made to President Grant for his pardon, signed almost unanimously by the Williamsport bar, and a large number of other prominent citizens. United States District Attorney Swoope, however, refused to sign the application, and there the matter rested until it was revived again a few days ago, the District Attorney recommend the pardon and the man was released. The grounds for the pardon were that Turner had been crippled for life, and that further out of respect to his father, a venerable old minister.

"Woman Suffrage."

The *Woman's Journal*, the advocate of Woman Suffrage, contains a full report of the proceedings of the recent anniversary of the American Woman Suffrage Association, from which it appears that Pennsylvania was represented by Miss Matilda Hindman, of this city, who gave an account of the work in this State. The *Journal* says:

"Miss Hindman proceeded to make an exceedingly interesting statement of the work accomplished during the past year in Western Pennsylvania. Many Woman Suffrage meetings have been held, generally in the Methodist and Presbyterian Churches. Miss Hindman has found general support and co-operation from ministers of all denominations, and especially of those above named. A Doctor of Divinity is their Vice President in Western Pennsylvania. Bishop Simpson and Bishop Janes are bold advocates of Woman Suffrage. The Presbyterian ministers are invariably friends of suffrage. Miss Hindman did not expect to gain suffrage by the efforts of woman mainly, but of men. She contended that we could not look to an oppressed race for strength and help. We must look to the good men of this country: but we need more workers and more money, and "money is the sword that will cut the Gordian knot that binds woman."

THE END OF A JOURNEY.

Sudden Death of a Woman.

On Saturday morning, Mrs. Eliza Kline, a widow, who for three years past has been residing in California, having gone there for her health, arrived in Allegheny city and stopped at the residence of her cousin Mr. Nelson Dunn, No. 249 Lacock street. She was apparently well enough, but it was plainly to be seen that she was also very much fatigued. She retired to bed that night, and about four o'clock Sunday morning, Bella Dunn, who was sleeping with her, was awakened by her labored breathing. Miss Dunn endeavored to waken her, but not succeeding, she aroused the family, and Dr. King, who lives close by, was immediately sent for. Before he arrived she was dead. Coroner West held an inquest yesterday, and the jury rendered a verdict of death from valvular disease of the heart, with which she had, it is said, been afflicted for years. Deceased was sixty years of age.

CHANGING GRADES.

Bedford, Wylie and Second Avenues Under Consideration—The Action Taken By Survey Committee.

The Survey Committee met on Saturday afternoon and transacted the following business: A petition was presented by Mr. Fleming for the re-survey of the street lines in Kerr's Plan Twenty-second ward, and was referred to a sub committee consisting of Messrs. Gross, Seely and Finley. A petition for the location of Roup street from Wilkins avenue to Four Mile Run Road, was referred to the sub-committee appointed on plan of streets on Squirrel Hill. An ordinance for the location of Clay alley from Webster to Wylie avenues, was ordered to be returned to Council with a recommendation for its passage. A petition for a change of grade on Wylie avenue was read, and Mr. Duff presented a remonstrance against the same. A number of parties present who were interested in the grade were heard, and then, on motion of Mr. Duff, the grade as already established was adhered to by the Committee. Consideration of the grade of Bedford avenue was the next business before the Committee. Mr. Morgan moved to change the grade by making a fill of fourteen feet at the south curb of Kirkpatrick street, and ascend to Chauncy street at a uniform grade of 7.5 feet to the hundred feet. Mr. Duff moved to amend by providing that a fill of eighteen feet at Kirkpatrick street, thence by a grade of 7.5 feet per hundred feet to Chauncy street, which was adopted. A change in the grade of Devilliers street, by a fall of four feet at the [illegible] On motion [illegible] Second [illegible], was [illegible]teen [illegible] from [illegible] Grand [illegible] avenue [illegible] is approv- [illegible] was ordered [illegible] venue.

MONEY WANTED.

Come Up with Your Contributions for Memphis—The Little Girls at Work—An Appropriation by Councils Asked For.

Money is still wanted to assist in relieving the suffering in Memphis. All who feel disposed to contribute to the fund are requested to hand their subscriptions to John G. Holmes, Treasurer, at N. Holmes & Son's, on Market street. The following additional contributions have been collected: Amount previously reported, $5,071 24; First United Evangelical Protestant Church, Allegheny City, $32, cash, $5; O'Niel & Rock employees, $50; a lady, 50c.; John Shoeb, $1; H. W. Horbach, $5, J. Gilchrist, $5; cash, $1; cash, Penn avenue, $10; cash, $2; New York, $1; Joseph Hastings, $5; Robert Rees, $5; German Evangelical Church, Smithfield street, $45; a lady, $5; M. E. Church, Connellsville, $10; William Hosack, $5; James L. Bowman, Esq., Brownsville, $10; R. S. Davis, $5; cash, $1. Three thousand dollars of the amount already collected has been sent to the Howard Association, $1,000 to the Citizens' Relief Committee and $500 to the Howard Association of Shreveport. Captain R. C. Gray, chairman of the Relief Committee, has received the following:

OFFICE HOWARD ASSOCIATION,
MEMPHIS, Tenn., Oct. 15, 1873.

To Pittsburgh Relief Committees:

DEAR SIRS: We return you our heartfelt sympathy in this our hour of affliction, and pray that God may bless you for it. We enclose herewith receipt for your donation of $1,000 received this morning, and also for $1,000 received on the 13th.

Very gratefully yours,
A. D. LANGSTAFF, President.

The following telegram, addressed to the President of the City Councils, was received by Clerk Morrow on Saturday evening:

CINCINNATI, October 25.

To President of City Councils:

Memphis, in great distress, appeals for aid to her sister cities. Cannot your City Council make an appropriation? Telegraph me at Indianapolis, Ind. Will visit Pittsburgh when your Councils could meet. Do your utmost for this worthy cause. Will be in Indianapolis on Monday.

H. M. LOWENSTEIN,
Citizen of, and authorized to collect aid and charity for the city of Memphis.

On Saturday afternoon eleven little girls, none of whom are twelve years of age, and whose parents live in Allegheny City, marched into Mayor Blackmore's office, and handed to Clerk Hartzell a package containing thirteen dollars and seventy-seven cents which they stated they had collected for the sufferers of Memphis and Shreveport. The money will be forwarded at once. The names of the little girls engaged in this good work were Lizzie Burdett, Mary Rudolph, Octo Heinle, Lizzie Cain, Emma Tomkins, Ollie Willis, Mary Scobie, Ida Bishop, Annie Willis, [illegible] and Jennie Cain.

"HEAVY SHAVES."

A General Demand for Lower Rates.

Our Business Men Feeling the Pressure of Discounts—The Rate of Interest Complained of—They Think Two Per Cent. a Little Strong—The United States Attorney's Views—Ready to Prosecute for Every Overcharge.

It is a fact pretty generally known—in business circles, at least, very uncomfortably realized—that ever since the commencement of the financial flutter of the past month or so, the rates of interest for money loaned have been on the ascending scale. The ascent at first was not very rapid, but it was certain, and at present any paper that is discounted must first stand a very noticeable "shave," so much so that the increase in rates has occasioned considerable complaint among business men, who must have discounts, and yet object to the high rates. This feeling of dissatisfaction was made more apparent to one of our representatives, who while making the rounds on Saturday dropped into a prominent headquarters in the city, and found a group comprising some of

OUR BEST BUSINESS MEN

discussing the situation "Oh you needn't back out" was the way the invitation to stay was put to the knight of the quill whose reportional diffidence, led him to start on a retreat. "We're just discussing finances and I suppose you want to hear the news."

"Always ready sir" was the response from the assured news-gatherer. "What,s the row now?"

"Well I was just saying as you came in, that the business men of Pittsburgh are hardly getting fair treatment from the banks just now."

"Why how's that" was the inquiry.

Manf.—"Why, sir, just now they are carrying out a plan that I don't consider honest, and that will do more in a half year to destroy that class of the community who make the business of the country and the earnings of the banks, than can be regained in a half dozen of years of good management."

Rep.—"Why, that's pretty strong. How do you make that out?"

Manf.—"Easy enough. I don't think, in the first place, it's honest at times like these, to pile on the interest as they have done. Then as to the business view of the matter. The energetic, enterprising business men of our country are almost to a man large borrowers, and the reason why the bank stocks of our banks are in demand at high prices, is because we, as manufacturers, borrow money, and out of our profits are able to pay high rates for large sums."

A COMPARISON.

Rep.—"Well, if you make such good profits, and *have* paid 'high rates,' what's the matter now?"

Manf—You misunderstand me. By high rates I mean, we pay higher proportionately than elsewhere. We don't object to that. It's this "piling up" in a time of stringency we complain of. Our banks are not better managed than those of Philadelphia, and yet our dividends are larger and our gross earnings far in advance of hers. There must be some reason for this and it can only be found in the manufacturing enterprise of our people, and the fact that the banks are, indirectly at least, partners in every manufactory in our city. And now comes a time when there is a scarcity of currency, and a special inability of the manufacturer or other borrower, to pay promptly what was loaned him in easier times when to get his eight or nine per cent. was an accommodation *to the bank*. Then in this extremity the banks are renewing paper reluctantly and compelling the borrower to pay even as high as

TWO PER CENT. A MONTH,

and the weaker they believe the borrower to be the stronger they feel in charging high rates of interest—as if the physician would open a vein in the arm of his patient already dying of hemorrhage.

Rep. (interjectingly)—"That's a pretty figure."—

Manf. (growing animated)—"The beauty of it is it's true—it exactly explains the case. Now I submit that the enterprising business men and manufacturers of Pittsburgh are borrowers—that business men have made our banks what they are, and that this is no time to apply such crucial tests of solvency to business men."

Rep.—"Why. you're in a logical humor today. What do the rest think of this business."

The rest all echoed the sentiments of the spokesman, who continued:

Manf.—"Yes, and you'll find every business man in the city thinks about the same way as I do."

Rep.—"There's one thing, though, you've forgotten. The banks, as I understand it, refuse to discount at all, and what paper is done, is not by the bank, but outside."

Manf.—"Oh, that'll do to tell. May be it will do to *say* that the bank is not discounting and that the accommodation (?) is extended by the President from his private purse, or from some church fund or charity money, but let the money come as it may, the facts are the same. We want lower rates, and I think in all fairness and justice we ought not to be 'squeezed.'"

Rep.—"Your idea then is that if the bankers desired they could do better by you."

SOWING AND REAPING.

Manf. (earnestly)—"That's it exactly. They oughtn't to try to make so much money off us in times like these. I tell you now if the banks play at this apparently safe game they will certainly contribute to discouragement, suspension and bankruptcy in more cases than they believe, and having sown this wind they will reap the inevitable whirlwind.

Rep.—"Well that wont be a very desirable crop. But, tell me, now, are there any of our National banks charging this tariff?"

Manf.—"As to that, I'm not particularizing; but I'd include the whole lot, all around, I don't see any difference.

Rep.—"I thought a national bank couldn't charge more than a certain rate.

Manf.—"I'm not arguing law—Swoope might tell you about that—I'm stating facts. And I say we ought to have relief."

The rest of the party coincided in this view and were almost as free in expressing themselves. At an interval in the conversation the reporter withdrew, and in pursuance of further information called upon United States District Attorney Swoope, found him at leisure, amiable, and ready for cross examination.

"Mr. Swoope, is there a fixed rate of interest on loans for National banks" was the first inquiry.

PROSECUTING CASES.

Mr. Swoope (inquiringly)—"Yes, there is. Why?

Rep.—"Can't you guess why? Have you heard of any banks disregarding that limitation?

Mr. Swoope—"Yes, I have, but not just recently. Some years ago, I remember, I had three or four cases in hand, and prosecuted them. The legal rate is six per cent., and in these cases the charges were considerably above that."

Rep.—"Have you heard of any cases in this city."

Mr. Swoope—"Oh, yes; I've heard of some, but they have never been brought up to me in a shape for prosecution. And anyhow, in view of the fact that the State moneyed institutions obtained much higher rates than that, I suggested to the authorities at Washington that so long as the National Banks kept within the regular banking rates they should not be prosecuted. I did this because, if the national banks did not get as much interest as the State banks, they likely would go into liquidation and then reorganize under the State laws, which, in effect, would be wiping them out. My superiors at Washington coincided in this view, and thus we've had no prosecutions."

"NO HIGHER RATES."

Rep.—"Well, suppose the rates were very high and times depressed—then what?"

Mr. Swoope—"Ah, I see; I see what you are driving at. That same thing has been hinted to me before, by business men. I think that no National bank should take a higher than ordinary rate of interest, in times of financial distress. I hear that some of our banks now are charging double the rates of interest that prevailed previous to this financial disturbance. I think that is a great hardship, and if I could get good evidence where a National bank has been guilty of such an exaction, I certainly would prosecute such a bank to the full extent of the law.

Rep—"What would be the result."

Mr. Swoope—"Why in case I should prove the disregard of the law, the penalty would be a forfeiture of the franchises, and privileges of such a bank. The concern would have to go into liquidation at once, and that would end it. Have you heard of any cases?

Rep—"I hear a great many things, and it would be strange if hadn't heard something in this direction."

Mr. Swoope—"Well sir, I can assure you if *I* get positive information on the subject, I'll not be long in making use of it."

Rep—"Perhaps you'd better make a few inquiries; that's the best way to get news."

And coupling this last remark with acknowledgments for the courtesy shown by the District Attorney, the inquisitive visitor forsook the presence of the official.

ST. MARY'S OF THE MOUNT.

Laying the Corner Stone of the New Catholic Church Yesterday.

The corner stone of a new Catholic church that is now in course of erection on Mt. Washington was laid yesterday afternoon with appropriate ceremonies. It will probably be called St. Mary's of the Mount. Rev. James Cosgrave will be the pastor. Quite a large number of the Catholic societies of the two cities participated in the exercises, and when all were in line the procession was quite imposing. The order of marching was as follows:

Cathedral Band.
Ancient Order of Hibernians.
St. Bridget's Association and band.
St. Malachi's Society.
St. Mary's of the Point.
Great Western Band.
St. Vincent De Paul and a beneficial society from St. Peter's church, Allegheny City.
St. Paul's Temperance Society.
St. Martin's of Temperanceville.
St. James of Temperanceville.

The corner stone was laid by Bishop Domenec, who delivered an address appropriate to the occasion. He was assisted in the ceremonies by Revs. Grace, Phelan, Holland, Tobin, Lambring, Ryan, Duffner and Cosgrave. The Bishop spoke in English and Father Duffner in German.

The Point Bridge.

The *Dispatch* handles a two-edged sword when it threatens to publish the names of absentees from to-day's Council meeting, on the ground that all such are hostile to *its side* of the Point Bridge question. Such dragooning is offensive to independent men at all times, and from any source, and in this case it is particularly so to not a few of the best men in the Councils, and will only tend to turn the indifferent into positive supporters of the bridge. Its friends claimed several such conversions on Saturday.

Wanted.—A boy wanted at this office. Apply this evening after seven o'clock.

THE PRICE OF COAL.

A Movement Toward Lowering the Tariff.

Lower Prices or Idle Mines—The Demand All Around for Cheaper Coal—The Demands upon the Operators—What Is to be Done About It—An Operator's Views of the Situation.

"Are you going to let up in prices any this winter?" asked the writer, of a prominent coal dealer who was encountered Saturday afternoon. The individual addressed was quick to respond, "I hope so, sir; I hope so. In fact that's what I'm just now considering."

"Well, will your cogitations amount to anything practical?" was the interrogatory.

"LOWER PRICES OR QUIT."

"I rather think they will," was the reply. "That is I think, as we are all thinking the same way, something practical is sure to follow." The operator was evidently interviewable, and the searcher after facts improved the opportunity, for getting information substantially as follows:

Rep.—"So you're all united; that may or may not be a good sign; which is it in this case?"

Oper.—"I think it is a good sign for lower prices. The fact is we must lower or quit, there's no two ways about that. The pressure for lower prices is coming from all quarters, and there will have to be a general let down of prices or of the mines. The operators are willing to do their share if they can get the miners to agree."

Rep.—"Well I'd think, if you state the case fairly, the miners would rather lower than quit."

Oper—"I can't tell about that. I think they ought to come down though. We can't pay the present rates for digging and sell coal for any less. Other workmen have lowered their wages and I think miners ought to come under the same rule. It wouldn't hurt them in proportion as it has hurt some mechanics. At the present time, under the operations of this new screen, they are making more money than they did last year, when wages and everything else were higher than they are now."

Rep—Then the whole trouble is with the high prices for digging."

NO SHIPMENTS AT PRESENT PRICES.

Oper—"Yes, sir; that's it. If the miners come down we will. And if the miners don't come down, we'll have to 'shut up shop.' For instance, now, to show you how the situation stands. I know a Chicago firm that takes the product of four Pittsburgh mines. I just saw a letter from them, in which they say that unless the price is lowered they can't take any more coal. They can get it cheaper elsewhere, and while they prefer Pittsburgh coal, they can't afford to pay so much for it. Their orders are peremptory—lower prices or no shipments. And that's not a single instance, without a parallel, either. I know it's the general feeling. All our manufacturers are growling, and are threatening to close on us. The same song comes from private consumers, too, so that everywhere we hear the one complaint. And I think myself it's just. Coal *ought* to be lower, but under existing circumstances it can't be."

Rep.—"Why that puts the coal operators in the light of unfortunate victims. Has there been any explanation of the case to the miners?"

Oper—I can't say that there has—that is no explicit statement. We are thinking about that now. We operators as I said, are willing to bear our share, but the miners must "toe the mark" too. We don't want to shut down—at least I don't and I don't know of any one else that does. But we won't "run" at a positive loss."

Rep.—What then's to be the amount of *your* "toeing."

Oper—In figures?

Rep.—In anything; I mean what are you going to do about it, so as to bring the matter up in a practicable shape."

OPERATORS IN COUNCIL.

Oper.—"That's just what I've been around about to-day. I've been talking with a good many operators, and we've been arranging for a meeting to be held early next week, probably on Monday, to have the matter discussed, and a general plan agreed upon."

Rep.—"Have you any plan in view?"

Oper.—"None but what takes in lower prices. I expect we'll have a fair statement made for presentation to the miners, and then the matter rests with them. If they will agree to come down—we coming down in proportion also—the business can be arranged. If not, then we'll have to stop operations."

Rep.—"That seems fair enough—a genuine reduction on both sides. I can't see how the miners can object to that. Have you broached the subject to them?"

Oper.—"I have spoken to a few miners, and they seem to take a favorable view of it. I am in hopes the matter can be arranged without any strike."

Rep.—"There ought to be no trouble, if there is an honest desire for a fair compromise. Nobody wants to be 'thrown out' these times."

"And I hope nobody will be," said the operator, by way of conclusion. "I can better answer your question about prices, however, after our meeting."

People generally are concerned in the question just now, and the result of the meeting will be regarded with interest.

THE DISTRICT CONFERENCES.

Their Growth—Range of Duties—Importance to Methodism.

To-morrow what is known as the East Pittsburgh District Conference of the M. E. Church, will convene for its semi annual session in the Emory Church, East Liberty. These Conferences form a part of the economy of the Methodist Episcopal Church,—which has a General Conference—made up of delegates from the ministry and laity, and meets once every four years—Annual Conferences, comprising the ministry and a few of the laity within stated bounds,—District Conferences which meet semi-annually,—one for each Presiding Elder's District, and Quarterly Conferences, which meet every three months, in each charge. District Conferences were first authorized by the General Conference of 1820, but were not successful. At the General Conference of 1872, the subject was revived, and its scope enlarged. Instead of being composed solely of local preachers who have been licensed two years, it now embraces all the itinerant and local preachers, exhorters, district stewards and Sunday School Superintendents. Thus the laity and ministry mingle freely in its deliberations. Instead of it holding annual it now holds biennial sessions. Instead of taking cognizance simply of the local preachers, it now takes the general oversight of all the temporal and spiritual affairs of the district. This it does by adopting measures to promote all the benevolent enterprises of the church, Sunday schools, missions, church extension and especially to seek out and provide for all unoccupied and neglected places in the district. It has power also to provide for literary exercises for the interest, and mutual benefit of the members of the body and of the community in which the sessions are held, since all the exercises are free and open to the public. It will be observed therefore that these District Conferences are sufficiently comprehensive both as to membership and prerogatives as to be made quite interesting. This certainly is the case in more thickly settled districts. In more rural and sparse settlements because of the inconveniences of travel, and the vast extent of territory occupied by the district they are scarcely of practical value. Hence it is wise that the adoption of this provision is left optional with each Presiding Elder's district.

The first of these conferences for the close of this year to be held in or about these cities convenes in the M. E. Church, East Liberty, Rev. W. A. Davidson, D. D., Pastor, to morrow at 2 o'clock P. M., and continues two days. The numerous friends of the Presiding Elder, Rev. H. Sinsibaugh, will be sorry to learn of his impaired health. We understand that at the close of the conference he purposes spending at least a portion of the winter in Denver, Colorado, hoping that a milder and more regular climate will prove a salutary benefit. All are hopeful for his speedy restoration as the church and district can very poorly spare his efficient labors. It is expected that Bishop Simpson will preside and address the conference to morrow evening.

E. M. W.

AMUSEMENTS.

PITTSBURGH OPERA HOUSE.—The engagement of Mr. John Thompson at this place of amusement closed on Saturday night, and this evening the well known Frank Mayo, will tread the boards in the character of "Davy Crockett" in the play of the same name. He will be supported by Miss Rosa Rand, who is spoken of as a promising actress. Of her merits, however, our readers will be best able to judge themselves when they have seen her acting. If Murdoch in writing the backwoods idyl to which he has given the title of Davy Crockett has woven into the drama any of the scenes and incidents which enriched the life of the famous and eccentric American frontiersman, and if he has displayed a fair share of ability in truthfully working the scenes up, he has produced a play, powerfully and thoroughly sensational, yet so true to nature as not to offend the most cultivated taste. Mr. Mayo and the drama in which he appears have both been highly commended, and when last here the gentleman drew enthusiastic audiences every night.

ACADEMY OF MUSIC.—The Magic Talisman will be produced here every night this week. It belongs to the spectacular class of plays, and in that line is said to be ahead of the Black Crook.

PROF. MACALLISTER.—The "Monarch of the Realms of Mystery" who has just returned from a tour in Europe, will appear at Masonic Hall on the evening of November 3rd. He has added considerably to his repertoire, it is said, since his last visit, and gives an entertainment in magic, more enjoyable than ever before.

"FREE HATE."—The initial lecture of the coming season in Sewickley, will be given next Thursday evening in Mozart Hall by Miss Minnie Swayz, upon the subject "Free Hate." The lecturess comes from the East with flattering commendations from the Press, and if the half be true, the citizens of Sewickley will be furnished with an entertainment that will be in the highest degree pleasant and profitable.

MRS. STOWE.—There is hardly any danger that any of our people who are interested in genuine literary entertainments, will forget that Mrs. Stowe's readings will be given in Library Hall Wednesday evening. The sale of seats indicates that the famed authoress is to be greeted with an audience that will be flattering, and with which she will have no fault to find.

European Steamship Arrivals Saturday.

A dispatch received at Max Schamberg's European Steamship and Telegraph Office, at No. 163 Smithfield street, announces the arrival of the N. G. Lloyd line steamer Rhein, at New York; Anchor line steamer Columbia, at New York; Cunard line steamer Abyssinia, at New York; Cunard line steamer Java, at Queenstown; Great Western line steamer Arragon, at Bristol.

Dr. Quincy A. Scott, Surgeon Dentist, has resumed the practice of his profession at his old stand, 278 Penn avenue. tf

THE COURTS.

SATURDAY'S PROCEEDINGS.

Supreme Court of Pennsylvania.

[*Full Bench, Chief Justice Read Presiding.*]

The case of Read vs. Erie city was resumed and concluded. Argued by T. C. Marshall, Esq., for plaintiff in error and by Lathy contra.

AN OIL WELL CASE.

Raydure's appeal from the decree of the Court of Common Pleas of Crawford county. Argued by J. P. Brawley, Esq., attorney for appellant, and McCoy, contra.

In September, 1868, Benjamin Bennett and others associated themselves together for the purpose of putting down an oil well in Pleasantville, Venango County; Stafford Raydure, one of the members of the association, was made the superintendent, and under his direction machinery, tools, etc., to the amount of $4,214 were purchased and the well put down. The enterprise, however, seems to have proved unsuccessful, and, after holding one or two meetings, without arriving at any conclusions in regard to paying the indebtedness of the association, the superintendent, Stafford Raydure, who had concluded to operate the well, gave a judgment note to W. L. Raydure, who was employed at the well, for $215.25, amount due him for work. He signed the name of the association to the note, and W. L. Raydure caused judgment to be entered against the company, had an execution issued, and the property of the association sold. He bid the property off for $35, and continued pumping the well and used the tools in operating and drilling wells for different parties. Some months after the sale a bill of equity was filed against the respondents, including W. L. Raydure. A demurrer was filed, the respondents claiming that the bill was vague and uncertain. The demurrer was overruled, and a decree to account entered against all except W. L. Raydure, and the bill dismissed as to him. From the final decree to this case the appeal is taken.

THE MANDAMUS CASE.

In the case of the Commonwealth vs. Hon. Harrison Allen, Auditor General, the reply of the relator to respondent's answer, and also the affidavit of D. C. Maurer were read and filed. The petitioner, J. Monroe Kreiter, filed his affidavit, admitting that he had been invited to come and inspect the books after the previous refusal, but denied that he declined to come and make the inspection. He had merely declined to come just then; but said he would come at some future time.

Mr. D. W. Patterson informed the Court that as the Auditor General is now willing to exhibit his books, he thought no *mandamus* was needed, but the relator, Mr. Kreiter, merely wished a justification of his action in petitioning for the writ, and with this view he would ask that the respondent be directed to pay the costs.

Mr. Swoope claimed that the Auditor General was not responsible for the refusal of his clerk, it being understood that that clerk and all the others had been directed to allow the accounts to be freely examined, and hence Mr. Patterson had violated the express orders of his chief.

Mr. Justice Sharswood wanted to know whether that clerk had been discharged, and when Mr. Swoope said he had not, the Justice thought that Mr. Allen could hardly be sustained in his claim of irresponsibility.

This concluded the case, and the petition was dismissed and the question of costs held under advisement.

Plumer vs. Guthrie. Error to the Clarion county Common Pleas Court, and Vensel's appeal from the same Court, were continued by the Chief Justice.

Criminal Court.

[*Before Judge Stowe.*]

The case of the Commonwealth vs. John West, charged with adultery, on oath of John Thompson, was continued.

Wm. Harrison, who plead guilty to cutting and wounding a man named Vincent, about one year ago, on a car on the Pennsylvania Railroad, was sentenced to the Work House for one year and six months.

John Herriman, found guilty of aggravated assault and battery on John W. Merriman, was sentenced to pay a fine of twenty-five dollars and costs.

George Fritz, found guilty of assault and battery, was fined fifty dollars and costs.

Messrs. Marshall, Moore, Coyle, and Siebeneck, counsel for the Scheuttler family presented a petition requesting a day to be fixed for a hearing on the question of bail.

The Court fixed to-morrow at one P. M. as the time for arguing the petition before Judge Sterrett.

Trial List for To-day.

Commonwealth vs.

Hugh Haley,
Wm. Moore,
Lee Wilkinson,
James Thoburn, (2),
Wm. Reardon,
John Fitzgerald,
John Malow,
Annie Gray.

Jacob Hasley,
John Kohrson, (7 cases),
Herman Drewy,
Wm. Brenning,
Christ W. Coleman,
Mortimore Hawkins,
James Johnston,

District Court.

[*Before Judge Kirkpatrick.*]

In the case of James Neel vs. McKeesport borrough *et al.* in equity, the nature of which has already been stated in these columns, Roderick McKee was allowed to become one of the plaintiffs, and the plaintiffs were allowed to amend their bills by adding paragraphs.

No other business of general interest was transacted.

Court of Common Pleas.

[*Before Judges Sterrett and Collier.*]

In the case of Daniel Wenke vs. the Pittsburgh, Virginia and Charleston Railway Company, the report of viewers was filed and confirmed *nisi*.

The report of viewers in the case of School Directors of Baldwin Township vs. the Pittsburgh, Virginia and Charleston Railway Company, was filed and confirmed *nisi*.

A petition was filed for the dissolution of the Sewickley Academy. A final order was granted.

DIVORCE CASES.

Benjamin F. Olmsted filed a petition in divorce against his wife, Mary Jane Olmsted, on the grounds of desertion. The usual subpoena was awarded; first Monday in December.

Johanna Cerney, by her next friend Louis Roeygentine, filed a petition for divorce from her husband, James Cerney, on grounds of cruel and barbarous treatment. The petitioner was married on the 20th of October, 1873, (five days ago.) Her petition sets forth that the defendant has endangered her life and rendered her condition intolerable; that he has frequently struck her with great violence, and that he is in the habit of using profane and abusive language towards petitioner, by which she is held in fear and terror. A subpoena was awarded.

A petition in divorce was also filed by John Emmel, against his wife, Elizabeth Emmel, on the grounds of adultery. Subpoena awarded.

United States District Court.

[*Before Judge McCandless.*]

In the matter of Manley N. Walker, bankrupt, on application of L. F. Fitch, Esq., solicitor of the Sheriff of Susquehanna county, and also solicitor of Wilder Gardner and Bissell Woodward, to whom this Court, by order dated October 6, 1873, directed to be paid of the proceeds of sale of bankrupt's property by said Sheriff the sum of $724.16 and $112.45, respectively, and for the convenience of all parties interested it is ordered that said Fitch be allowed to receipt for the amount due Gardner and Woodward, and the remainder, to-wit: $425.82 to be paid into the Register of the Court, and by the Clerk to the assignee.

In the case of Reed & Co., *et al.*, vs Jacob Greiser, bankrupt, of this city, on motion of Mr. Watson, solicitor for petitioning creditors, the debtor was adjudged a bankrupt, and the matter referred to Register Harper; and on petition and affidavit presented, U. S. Marshall Hall appointed provisional assignee and directed to sell certain goods of a perishable nature.

In the matter of Joseph Hoch, bankrupt, on petition presented for rule on Joseph Fairly, assignee, to show cause who he should not pay the mortgage of the Pennsylvania Insurance Company of Pittsburgh, was referred to Register Shaffer for examination and report.

In the case of Roberts & Co. vs. The Tionesta Savings Bank, the return day of the order to show cause was extended to the 12th prox.

In the case of S. P. Shriver vs. Samuel C. Stevenson and Abram W. Eicher, partners as Stevenson & Eicher, Fountain Mills, Fayette county, petition and accompanying depositions filed an order to show cause, made returnable on the 11th prox.

In the matter of Samuel R. McClean, banker, on application of M. A. Woodward, Esq., assignee, order made for the examination of bankrupt before Register Harper on the 28th inst.

In the case of Ira T. Clemens vs. L. R. Hummel & Co., on denial and demand in writing, filed October 23, 1873, a jury trial was ordered for the next special term at Pittsburgh.

In the case of the Arsenal Bank of Pittsburgh vs. Thomas Collins, on petition and accompanying depositions filed, order to show cause was made returnable on the 7th proximo.

In the case of Roberts & Co. vs. Collins Brother, on petition and accompanying affidavit filed, Hon. John Hall, U. S. Marshall, appointed provisional assignee, and directed to take charge of the property of said debtors.

NEW RAILROAD.

First Excursion To-Day.

To-day at 10 o'clock the Lawrenceville and Evergreen Railroad—narrow guage—will be formally opened, the first train leaving Millvale borough, at that time. This road has long been needed, and no doubt will do a good business. Excursion trains will be run every hour to-day, free to all.

Cocoanut Caramels,
Chocolate Caramels,
Coffee Caramels,
New Crop Oranges,
Choice Lot Bananas,
Malaga Grapes,
at BLAIR'S,
62 Fifth avenue.

The Point Bridge and Consolidation with the North Side.

It is argued with a good deal of reason that if Councils "go back on everybody's promise" and refuse to pass the Bridge ordinance, it will put a final quietus on all hope of ever inducing Allegheny City to agree to consolidation. At all events, the bitter hostility of the "organ of the Coal Exchange" will be a very troublesome record when next it undertakes to "blarney" the North Siders on the subject.

Fruit in Baskets.
California Pears,

BREVITIES.

Paragraphic Pencilings of Passing Events.

....Many of the mills stopped yesterday.

....Lively times are expected at Councils to-day.

....Penn avenue is in a horribly filthy condition.

....Our churches were well attended yesterday.

....Sharpsburg was lighted with petroleum gas on Saturday night.

....The Coal Exchange is working hard against the new bridge project.

....There are now about ten thousand men out of employment in this city alone.

....Policemen complain that the doors of large business houses are frequently left open during the night.

....Those who bought silver at a premium had better sell it to-day if they want to get greenbacks for it.

....The Water Committee will confer with the Connellsville railroad officials, this evening in relation to the bridge over Soho run.

....Wm. Haley was thrown out of a buggy on Saturday night on Federal street Allegheny city, near Brill's drug store, and slightly injured.

....John Pretting gave Mayor Callow fifty dollars yesterday as a guarantee that he would appear to-day and answer a charge of abusing his wife.

....Clayton Springer, engineer of the Hope Engine, Allegheny, while working off his surplus activity yesterday in the jumping line, fell and sprained his ankle.

....The American Iron Works stopped operations on Saturday morning for the purpose of cleaning out their boilers in order that the Boiler Inspector might have a fair shake at them.

....A man, wife and two children were riding in a debilitated buggy yesterday evening, in Allegheny, when the concern fell to pieces at the corner of Pike and Chestnut streets, and the family landed in the mud.

....A number of boys of a school in Indiana township inaugurated an old fashioned fuss on last Thursday afternoon. The teacher undertook to whip one of the lads when they all turned in and put the professor out.

....A slight fire occurred on Saturday night at No. 50 Gum street, in the Eleventh ward where a colored family named Gregg resides. But little damage was done. One of the occupants was almost suffocated by smoke.

....Patrick O'Neill was held to bail yesterday, by Deputy Mayor Barker, in the sum of $1,500, on a charge of stealing from Wm. Hammond, on the night of the October 6th, one hundred four-inch boards, two clocks and a quantity of queensware.

....Since the panic seized upon some of the people in the country, and induced them to withdraw their deposits from the banks, the thieves smell their game afar off, and have gone to the country like vultures, to light upon and rob those who keep money at their homes.

....Henry Shutz, while sitting on the railroad track at Steubenville, Ohio, last Friday, was struck by a locomotive and had his hip dislocated. He was fortunate in not getting killed. Railroad tracks are not the easiest nor the most secure places to be found for resting purposes.

....Mr. Walker, of Wilkinsburg, was seriously injured on Saturday night, having one arm fractured and three ribs broken. He was going home about nine o'clock, and while crossing a culvert stepped off the edge and fell into the creek, a distance of fifteen feet. He was attended by Dr. Statler.

....We are debtor to Gildenfenny & Hess, No. 45 Fifth avenue for a copy of "*The Queen's Revenge and other stories*" Wilkie Collin's great book, from the prolific press of T. B. Stevenson & Bro's., Philadelphia. Collins as a novelist has few rivals, and the Queen's Revenge is one of his last and best.

....The Monongahela Valley *Messenger* says "Elizabeth is the Banner Temperance District of Allegheny county, and we learn that the county vigilance and executive committees will make the presentation to the proper parties here, some day during the coming week. They will be accompanied by a band from Pittsburgh."

....The proprietors of the Cambria Iron Works, announce that owing to the difficulty in making collections, hereafter they will be prevented from paying any cash to their hands, but will supply them with all goods required from the company's store. Cash payments will be commenced as soon as their money can be collected.

....The opening lecture of the Cathedral course was delivered last evening by Father Hickey in the basement of St. Paul's. His subject was "The Religious Conflict of the Age," and the entertaining manner in which he treated so interesting a theme made it doubly interesting to his hearers, of whom there was a large number present.

....A good advertisement in a widely-circulated newspaper, like the GAZETTE, is the best of all possible salesmen. It is a salesman who never sleeps, and is never weary; who goes after business early and late; who accosts the merchant in his shop, the scholar in his study, the lawyer in his office, the lady at her breakfast-table; who can be in thousands of places at once, and speak to thousands of people every morning, saying to each one the best thing in the best manner.

....Mt. Washington was the scene of a regulation prize fight on Saturday afternoon at four and a half o'clock. Two young men about twenty years of age, employees of the Excelsior Glass Works, on Forbes street, repaired to a lonely dell on that secluded mount and there wrestled manfully with each other until the larger one got a tooth knocked out and an eye blackened, when he threw up the sponge, and the smaller youth, whose hand was considerably hurt was declared the victor.

....American Silver is now quoted at 104@107, and as all know who are obliged to procure greenbacks for any purpose, the latter command at present a premium of from ½ to 1½ per cent. The actual intrinsic value of two silver half dollars is 99 4 cents in gold, and with gold at 108½, which is about the ruling rate, a dollar in silver is worth only 98 cents in currency. The new trade dollar, however, is at present worth about 98¾ cents in gold, or 106 8 cents in currency.

....Two young men, E. S. Weble and Joseph Stewart, were arrested early yesterday morning in Allegheny City for firing on the street. It appears that in company with a friend they left a saloon on Ohio street, and were followed by five other men. The latter attacked them with clubs and stones, whereupon one of the three pulled out his revolver and fired it in the air in order to bring the police. Their assailants "lit out" then, and the officers coming up arrested two of the assailed. On a statement of their case they were released.

....About seven o'clock last evening immense volumes of smoke were discovered issuing from the wagon manufactory of Knoch & Lang, on Sandusky street, Allegheny city, and instantly the excitement in that neighborhood mounted to fever heat, as all thought the concern was on fire. Investigation, however, showed that there was no danger. It seems that when the furnace fire was put out on Saturday evening a quantity of embers had been thrown against a log, and the smoke was the result of the fire that had been smouldering there.

....The pacing race on Saturday afternoon at Friendship Park was for a purse of three hundred dollars. The horses entered were Silver Cloud, Sorrel Jim and Gray Eagle. The race was won by Silver Cloud, who took every heat. This afternoon the last of the Friendship Park races commences, and will continue three days. To-morrow the celebrated trotter, Goldsmith Maid, will compete with Gloster, a well-known gelding belonging to A. Goldsmith, for a purse of three hundred dollars. The contest, it is thought, will be a close one, as the reputation of Gloster is almost equal to that of the Maid.

....Three men named James Aneal, Alexander Gates and John Fielding have been arrested and lodged in jail in Steubenville on a charge of having assaulted and robbed near that place a man named Holmes, a resident of Allegheny city. The men will have a hearing as soon as Holmes is able to attend. They deny their guilt, alleging that they saw Holmes lying on the track and rolled him down the embankment to save his life from any passing train. Their story had an air of suspicion about it, but the money of which the injured man claims to have been robbed was not found on their persons.

How to Live Economically.

The problem of how to economize in living is one that engages the serious attention of a great many people. "Many a little makes a mickle" was one of Benjamin Franklin's "Poor Richard" truisms that summarizes the whole system of popular extravagance. If you wish to save money, economize in little as well as in large items of expenditures. For all the household purchases for which polishing powders, Bath brick and soap are usually used, excepting the one thing of washing clothes, Sapolio is by many times the cheapest article that can be employed. To say nothing about its great superiority to all other substances, it is, on the score of money alone, by far the cheapest. Remember this fact and save many dollars every year. d&S

Genuine Reductions
In Fine Dry Goods.

Hugus & Hacke respectfully announce that during the past week they have availed themselves largely of the temporary depression of business and consequent great decline in the Eastern markets to replenish all their departments with the most desirable goods at the LOWEST CASH PRICES, and are now offering their ENTIRE STOCK at correspondingly low rates.

In particular, they would call attention to their stock of Black and Colored Silks, Shawls, Cloaks, Costumes, and Dress Goods which their customers will find well supplied with reasonable and attractive Goods, and which, for variety and cheapness, have never been surpassed. Ladies should take an early opportunity to avail themselves of the splendid inducements here presented.
HUGUS & HACKE,
MWF Fifth avenue and Market street.

THE POINT BRIDGE.

A Demand for the Accommodation—Citizens of the South Side in Council—Strong Resolutions Adopted.

On Thursday evening a meeting of citizens of the Thirty-fourth, Thirty-fifth and Thirty-sixth wards, was held in Odd Fellows' Hall, Temperanceville, to take action toward the furtherance of the project of erecting a bridge from the Point to the South Side.

Mr. E. R. Donohue was called to the chair, and Joseph Dorrington appointed Secretary.

After some discussion of the subject, a committee, consisting of Messrs. Anderson, Stevens and Graham, were appointed to draft resolutions expressive of the sentiments of the people, the same, when acted upon, to be presented to Councils.

A committee was also appointed to ascertain and report facts and figures in favor of the project.

Adjourned to meet on Friday evening.

On Friday evening the Hall was crowded with citizens of the wards named, all expressing the greatest interest in the project and showing a determination that the promises made them should be fulfilled and that the proper and needed facilities for intercourse with the business part of the city should be afforded them.

THE RESOLUTIONS.

Mr. Andrews, from the committee on resolutions, presented the following:

WHEREAS, The Legislature of Pennsylvania at its last session passed an act authorizing the Councils of the city of Pittsburgh to build a bridge from the point across the Monongahela river, to a point in the Thirty-fourth ward, and whereas the Bridge Committee of Councils have perfected and prepared a plan of said bridge and presented it, and been approved by the Hon. Common Council of said city and is now before the Select branch of said body for concurrence.

1st, *Resolved*, That the citizens of the Thirty-second, Thirty-third, Thirty fourth, Thirty-fifth and Thirty-sixth wards in mass meeting assembled, do hereby ask as a privilege, and demand it as right, that Council should pass the ordinance to build said bridge for the following reasons, viz: 1st. That the proposed bridge is a matter of the greatest public importance to the city of Pittsburgh on both sides of the river. Cause 1st., the private dwellings in the old city are supplied with at least one-fourth of all their coal hauled in wagons from the South Side, brought over the ferry at a high rate of toll, and much loss of time, making an increased price to consumers of not less than one cent per bushel. During the discussion of the question of consolidation of the South Side districts to the city, pledges were made in Councils and by the press that the bridges should be free, and we now demand that those pledges should be fulfilled. Further, because the city is morally bound to furnish the most ample and complete facilities for travel and intercourse between its different sections.

2d. A similar addition is made to the price to all the hay, grain, fruits and produce of every kind that comes from the South Side, thus making an increased cost to the consumers of more than their share of the interest of the cost of said bridge, if there was no provision for its payment out of the tolls received.

The valuations of the wards of the city on the South Side below the Monongahela bridge, are as follows, viz:

Thirty second ward valuation	$2,355,545
Thirty-third ward valuation	906,775
Thirty-fourth ward valuation	1,135,000
Thirty-fifth ward valuation	1,660,501
Thirty-sixth ward valuation	1,294,241
Making in all valuations	$7,352,062

of this part of the city on the South Side, and that the day this bridge is erected, it will more than double the value of property in said wards. The taxes to be derived from the increased valuation would alone pay the interest on the cost of said bridge at a cost of $500,000.

3d. That the valuation of the First ward in the old city is $7,419,082, which nearly all lies west of Market street, and also a considerable part of the Fourth ward, making together property west of Market and Sixth streets of the present value of not less than $8,000,000. This part of the old city has heretofore never had any outlet across either river, and their property is notoriously of less value by one-half than other similar property in the old city. The building of this bridge will bring the property of these wards to an equal value with other more favored parts of the city, thus doubling their valuation and the present rate of millage on the same will more than pay the interest on the cost of the bridge.

4th. That the tolls derived from the Manchester ferry, Pittsburgh ferry and the Monongahela bridge, for travel that would pass over this bridge if built will now amount to over $60,000, far more than the interest on cost of said bridge, surplus from which, with the increased amount of revenue will, in a short time, make this bridge free.

Resolved, That the city by its action in having an act of Assembly passed last winter giving it authority to buy out all bridges between the old city and the South Side at an appraised value, has materially interfered with private enterprises, so far as perfecting means of communications are concerned, and it would be impossible to secure stock subscriptions toward building said bridge so long as the city has the power to buy, build or take possession of same.

Resolved, That as we pay the regular assessed tax same as paid in the city proper, we are entitled to some of the benefits accruing from the same, such as free access to our markets, public buildings, schools and churches, which we are now denied from doing, owing to no direct communication.

Resolved, That although rings and newspapers, whether paid or not, may raise a cry against this measure; yet, we have confidence in the fair dealing and candor of the Councils of the city of Pittsburgh, and that they will decide this question on its just merits, and we know that if they do so all our citizens will be the gainers thereby.

SAML. ANDREWS,
W. C. STEVENS,
JOHN GRAHAM.

The report was adopted and, on motion, the committee was directed to present the same to Councils.

—The Grand Lodge of Kentucky Masons closed on Friday. Among the points decided in adopting the reports of the various committees are, that disability of voting and office holding cannot be imposed previous to suspension for non-payment of dues; that the mandate of the Grand Master must be obeyed when the Grand Lodge is not in session; that the regular suspension dues barred the right to Masonic burial.

"A DOSE IN TIME," &c.

If "a stitch in time saves nine," it is equally certain that a dose of a healthy tonic like Hostetter's Stomach Bitters taken at this inclement season of the year may save many an unpleasant twinge; a dose, however, is not sufficient. The system should be thoroughly charged with this genial vegetable stimulant and invigorant. Commence taking it with the commencement of the atmospheric changes which distinguish the winter from the autumn. Thereby you will avoid these disturbances of the digestive and secretive organs, and those painful diseases of the muscles and the nerves of sensation, which often render the period of the year which should be the merriest, a season of penance and disquietude. The extraordinary vigor and regularity which this exhilarating restorative imparts to the most important functions of the body, render it an invaluable remedy for nervous debility, constipation, indigestion, torpidity of the liver, and intermittent fever.

DIED.

LOGAN—On Sabbath morning, October 26th, at 7 o'clock, ARCHIBALD LOGAN, aged 64 years.

The funeral will start from his late residence, No. 10 Knoll street, Allegheny city, on TUESDAY, October 28 h, at 9 o'clock A. M., and proceed to Montour's Church, where the funeral service will take place at 12 o'clock M. The friends of the family are respectfully invited to attend.

McDONALD—At the residence of her parents, 186 Robinson street, Sunday afternoon, October 26th, MOLLIE E., youngest daughter of W. R. and Elizabeth McDonald, aged 5 years.

Funeral THIS (Monday) AFTERNOON, at 2 o'clock. Friends of the family are invited to attend.

ROBBINS—On Sunday evening, October 26th, at 8 o'clock, Mrs. MARY H., wife of the late Theodore C. Robbins, in the 49th year of her age.

Funeral will take place on TUESDAY AFTERNOON, at 2 o'clock, from her late residence, No. 38 Townsend street. The friends of the family are respectfully invited to attend.

BUCKEYE BREVITIES.

JOSEPH ARCHER, a horse shoer at Kent, near Garrettsville, came in possession of a vicious horse, and thought he was capable of subduing him. While excited by liquor, he went into its stable to make his first attempts, but the horse was too much for him and kicked him to death.

JOHN SCHWEITZER, of York township, Coshocton county, was out on Sunday last with some other parties gathering hickory nuts. He climbed a tree about seventy-five feet high in his stocking feet, and missing his hold, fell to the ground, fracturing his skull at the base of the brain, breaking collar bone, four ribs and thigh. He was instantly killed.

THE Atlantic and Great Western Railroad has brought Owen Loftus to grief and he will steal no more. Loftus, who lives at Youngstown, Ohio, was in the employ of the company and carried on a systematic course of theft. In his house about $180 worth of goods were jammed, belonging to the company. Loftus, in default of $700 bail, repines in jail.

JACOB SEACHRIST, of Wooster, made a balloon ascension from the fair grounds at Carrollton, in the presence of 3,000 people. He started on his aerial voyage at 3½ o'clock, the balloon going almost directly north, and at 4½ safely landed in an open field on Samuel Biery's distillery farm in Knox township, Columbiana county, 7 miles south-east of Alliance. The distance traveled was 28 miles.

FOR SALE—REAL ESTATE
FIFTH AVENUE
AND
WOOD STREET PROPERTY
FOR SALE.

A sale in partition in the estate of Alex. McClurg, deceased.

3 Lots on Fifth avenue, adjoining Dispatch buildings, 20 feet front (each) and 120 feet deep, with the buildings occupied as stores.

2 Lots, 18 feet each, fronting on Virgin alley, 120 feet (immediately in rear of above Lots,) with buildings.

3 Lots, 18 feet each front on Wood street, near 4th avenue, 90 feet deep, with 5 story buildings, occupied as business houses, with Hall above. Known as Lafayette Hall.

1 Lot, 30 feet front on Fourth avenue, four stories, building occupied as offices.

To capitalists and business men here is one of the best chances that has been offered for a long time to make a good investment that will pay largely on the amount invested, at the same time the property is increasing in value, as all who know the property know it to be among the most valuable in the city.

Will be sold at a reasonable price and on good terms to close up the estate. Apply to
HERRON & BATES,
REAL ESTATE DEALERS,
83 Wood street.

FOR SALE.
100 Quarter and Half-Acre
LOTS,
ALSO, THE
FARM HOUSE AND BARN,
With 1½ acres of ground and about 460 bearing Fruit Trees; also a Farm of 125 acres, adjoining the above Lots, with about twelve acres of Coal. All of the above within from five to ten minutes' walk from Walls Station, P. R. R. This property will be sold on easy terms. Plans can be seen at my office. This property offers better inducements for speculation than any property offered on the Pa. R. R. on account of its close proximity to the contemplated improvements of the P. R. R. Co. Inquire of

PROPOSALS.

Forbes Street Improvement.
Time Extended.
NOTICE TO CONTRACTORS.

Sealed Proposals for Grading and Masonry of Forbes street, from Bouquet to Brady streets, will be received at the City Engineer's office, to the 28TH DAY OF OCTOBER, at 12 M.

Plans and Specifications will be seen, and all information given relative thereto, at the Engineer's office within the time named for receiving proposals.

The Commissioners reserve the right to accept or reject the whole or any portion of all proposals, should they deem it prudent to do so.

Bidders must accompany their proposals with bonds, as required by the city.

THOMAS WIGHTMAN,
CHARLES J. CLARKE,
JOHN McDAVITT,
JAMES MURDOCK,
ALEXANDER CHAMBERS,
Commissioners.
